

# VIDEO AND AUDIO

## ADA COMPLIANCE CHECKLIST OF DO'S AND DON'T'S FOR VIDEO AND AUDIO FORMATS

Use closed captions for videos for students who have hearing impairments

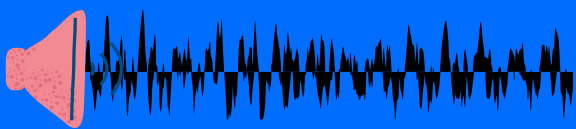

Videos without closed captions are inaccessible for students who have hearing impairments

If unable to add closed captions, provide a transcript

Without transcripts, students are unable to understand the video if the video doesn't allow for captions

Clear audio and images help students who have vision or hearing impairments

Unclear audios and blurry images pose an obstacle for students who have vision or hearing impairments
