DISCUSSION:

1. Big Block Exercise –
 - The students were given shapes representing Commons, Student Organizations, Meeting & Events, Open Area, Retail Dining, Main Circulation, and special location shapes and three sheets for each floor level.
 - Shapes could be written on to add any space you see missing or would like to add.
 - Arrange the spaces where you want them to be located throughout the building levels.
 - Consider how the levels and spaces might stack above each other.
 - Think about entry locations and connections to the exterior.
2. Discoveries:
 - Preferred more shared dining and common spaces.
 - Liked central floor opening bringing in natural light and connecting all the floors.
 - Liked a main circulation path where spaces were visible, and people could connect.
 - Wanted dining space off the balcony space like UNT.

- Dining and meeting rooms dispersed throughout the floors.
 - Wanted connections to the outside mall space.
3. Next Meeting is November 2 in the Bluebonnet South – Bubble Diagrams.

The previous minutes are our recollection of the project discussion. Should there be any discrepancies, please notify our office within seven days of receiving this report.
