DISCUSSION:

Student Meeting (6:00 PM)

1. BRW present Bubble Diagrams to illustrate the following:
 - Primary circulation axis
 - Visibility throughout
 - Connection to Brazo Park
 - Opening for daylight and connection
 - Building addition & exterior improvements
 - Plan level and addition improvements
2. Student feedback:
 - Likes Commons and Dining space near glass.
 - Lower Level:
 - “Fuzzy’s” type space would be cool for coffee or dining
 - Study area downstairs
 - Market area like the one in the library
 - Would be nice to have Commons space seen from above and could be a music venue
 - Sports arena in the basement

- Second Level – Addition with balcony would be awesome with bigger terrace
 - Ability to look at Brazos Park and mall
 - Starbucks would be a draw to bring students up to see new student organizations. Also dispersing food throughout UC in a good way.
 - Mini market on second floor to get snacks like what they have in the library
 - More chill space to relax
- Other thoughts –
 - Outdoor learning stair for dining and chilling would be cool
 - Commons to include gaming, study, lounge, billiards
 - Palo Dura flanked by dining would be good.
 - Visitor / Future students seeing Student Organizations on the first level will help get students excited about joining.
 - Student organization next to Bluebonnet would be nice.
 - Like idea of more variety in dining spaces
 - Make it look different
