Climate Leadership Spotlight Series

Climate Action in Government

This fall, the UT Dallas [Office of Sustainability](#) and [Office of Research and Innovation](#) are hosting the Climate Leadership Spotlight Series in person at UTD's [Blackstone Launchpad](#). Our mission is to shine a spotlight on the regional initiatives driving progress towards Sustainable Development Goal (SDG) 13: Climate Action as an extension of the [RCE North Texas](#) focus, while providing a space for collaboration among sustainability professionals.

Mark your calendars for September 28th, from 3 pm to 5 pm, as we kick off the series with a dynamic session focused on government. Get ready to be inspired by presentations from distinguished voices, including the [North Central Texas Council of Governments](#) and [Dallas Fort Worth International Airport](#). The presentations will showcase cutting edge innovations in sustainability as well as funding opportunities to accelerate regional climate action efforts.

Following the presentations at 4 pm, we invite you to stay for a dedicated networking hour. It's a chance to build connections, share knowledge, and cultivate a culture of collaboration that will drive meaningful change.

Register [HERE](#) to save your spot at this event!
