

### PAPP Dissertation Proposal Rubric

The Dissertation Supervisory Committee (DSC) determines when the student's dissertation proposal is sufficiently complete for research to commence. The student presents the research proposal to the DSC, and although the committee is concerned primarily with the dissertation research, it may explore the student's knowledge in areas relevant to the core of the dissertation's proposed research problem.

**Committee Member:** please assess the student's performance using this rubric and provide it to the Chair.
