F PEDAGOGY

statement of pedagogical intent	01 program title	Study Abroad Program in France and Germany
	02 statement of pedagogical intent	The Study Abroad Program in France and Germany provides a rich survey of history, culture, design, art and architecture unparalleled in the pertinent composition of Western Civilization. Students of Architecture expand scholastic endeavors via direct witness and exploration of Architectural Paradigm. Many Civilizations and Urban progress are rooted in the long history of France and Germany providing a foundational understanding of time and place. The study of historical models enables one to learn from the past in order to reflect upon our own cities and their challenges.

All dates and costs are estimates and subject to change.
