

Grafik is a branding and advertising agency called [Grafik](#) based in Washington D.C. Our services include positioning, messaging, visual identity, technology, UX design, marketing, and web development. I'm reaching out to you because we are looking for new graduate talent whose focus is in marketing/advertising. The specific roles we are interested in at this time are account management and project management with the opportunity to do some brand strategy, and UX designers.

We would welcome resumes from recent undergrad business graduates of UTA, as well as seniors who are about to graduate this May. Additionally, we always are interested in interns as well.

If interested, send your resume, cover letter, and portfolio (only if you have one, not mandatory) to: [apply@grafik.com](mailto:apply@grafik.com) with the **Subject line: Opportunity you are interested in - UTA.**  
(Ex: Account Management Opportunity – UTA)

We currently are all working remotely, with people in California, Philadelphia, Rome, Italy, and myself in Dallas. So it's not imperative that candidates be from the D.C. metro area, although it would be expected down the line that employees attend working sessions in the D.C. area when things are safe again.

Please let me know if you have any questions,

**Kristina Gorski**

Director, Client Services • C 301.778.8597

**Grafik** 625 First St. #811 Alexandria, VA 22314
