PROGRAM OVERVIEW

The Master of Science in Quantitative Finance program is a STEM-designated program designed to meet the growing demand for financial professionals equipped to implement state-of-the-art analytical techniques in support of financial decision-making. Offered weeknights in Arlington, the MS in Quantitative Finance program is the only program of its kind in the DFW Metroplex. The 36-credit hour curriculum focuses on areas including economic theory, financial modeling, econometrics, mathematical finance and finance theory in addition to offering elective options that allow pursuit of future interests. This degree program is a specialized degree program designed to build upon the candidate’s prior background.
