### Course Number

NURS 5462

### Course Name

Adult Gerontology Primary Care

### Course Description

Focus on interdisciplinary approach and advanced knowledge in the management of adults from adolescence through old age, their families, and communities in a variety of health care settings.

### Course Outcomes

1. Incorporate theoretical knowledge and evidence- based guidelines/data into management plans to address commonly occurring diseases in the adult and elder population.
2. Integrate aging theories in the diagnosis and management of commonly occurring geriatric disorders
3. Select diagnostic and therapeutic procedures based on patient assessment.
4. Collaborate with other disciplines to provide care for adults and elders across the continuum of care.
5. Promote patient safety in transitions between and across health care delivery environments.
6. Evaluate the influence of health policy on provision of health care to adolescents, adults, and elders.
7. Apply principles of genetics in diagnosis and treatment of common acute and chronic diseases.
8. Select education and counseling materials for patients, families, and caregivers to prevent illness and restore health.

### Course Number

NURS 5352

### Course Name

Adult Gerontology Primary Care Clinical Practice I

### Course Description

Clinical experience in primary and long-term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Graded.

### Course Outcomes

1. Assess, diagnose, and manage the health care needs of adolescents, adults, and elders.
2. Provide culturally, spiritually, ethnically, age, gender, and sexual orientation sensitive care
3. Incorporate diagnostic test data/results into therapeutic interventions.
4. Evaluate and revise management plans based on additional assessment and diagnostic test data.
5. Demonstrate ethical decision-making in advanced nursing practice.
6. Implement the role of the Adult Gerontology Primary Care Nurse Practitioner in collaboration with other health care professionals in primary care practices and health care delivery systems.

### Course Number

NURS 5353

### Course Name

Adult Gerontology Primary Care Clinical Practice II

### Course Description

Continued clinical experience in primary and long-term health care settings with focus on managing adolescents, adults, and elders with common episodic acute and chronic health care needs. Graded.

### Course Outcomes

1. Assess, diagnose, and manage the health care needs of adolescents, adults, and elders.
2. Provide culturally, spiritually, ethnicity, age, gender and sexual orientation sensitive care.
3. Incorporate diagnostic test data/results into therapeutic interventions.
4. Evaluate and revise management plans based on additional assessment and diagnostic test data.
5. Demonstrate ethical decision-making in advanced nursing practice.
6. Implement the role of the Adult Gerontology Primary Care Nurse Practitioner in collaboration with other health care professionals in selected primary and extended care health care delivery systems.
7. Analyze patient selection criteria, pathophysiology, indications/contraindications, and complications when performing office-based procedures.
8. Incorporate technology in care planning to improve outcomes and promote safety.

### Course Number

NURS 5645

### Course Name

Adult Gerontology Primary Care NP Advanced Practicum

### Course Description

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of advanced nursing practice.

### Course Outcomes

1. Use evidenced-based knowledge to manage the health care in selected populations.
2. Provide comprehensive health care (e.g. age, gender, cultural, ethnic sensitive) to patients, families, and/or groups within the ethical and legal scope of advanced nursing practice.
3. Evaluate patient and family outcomes for the purpose of monitoring and modifying care.
4. Collaborate with other health care professionals to provide comprehensive care.
5. Implement the nurse practitioner role in selected settings.
