

Preceptor Program for College of Nursing Health and Innovation

Graduate Nursing MSN/Post Masters Certificate Pediatric Primary Care NP Courses

Course Number

NURS 5465

Course Name

Primary Pediatric Care

Course Description

This course focuses on advanced concepts and knowledge for nurse practitioner's management of designated minor acute, chronic and complex health problems of pediatric patients and their families in primary care healthcare settings.

Course Outcomes

1. Evaluate theoretical and empirical knowledge of designated minor acute, chronic and complex health problems of pediatric patients and their families in primary care practice.
2. Apply evidenced-based practice guidelines to the planning of comprehensive health care for pediatric patients and their families in primary care.
3. Plan health promotion, health protection, and disease prevention approaches in the care of pediatric patients and their families in primary care.
4. Plan care that is sensitive to pediatric patients and their families in the domains of culture, spirituality, age, gender, and sexual orientation.
5. Identify collaborative roles of other health professionals in the care of pediatric patients and their families.

Course Number

NURS 5467

Course Name

Pediatric Complex Care

Course Description

This course focuses on advanced concepts and knowledge for nurse practitioner management of designated acute, chronic and complex health problems of pediatric patients and their families in multiple healthcare settings.

Course Outcomes

1. Evaluate theoretical and empirical knowledge of designated acute, chronic and complex health problems of pediatric patients and their families in multiple healthcare environments.
2. Apply evidenced-based practice guidelines to the planning of comprehensive health care pediatric patients and their families.
3. Plan health promotion, health protection, and disease prevention approaches in the care of pediatric patients and their families
4. Plan care that is sensitive to pediatric patients and their families in the domains of culture, spirituality, age, gender, and sexual orientation.
5. Identify collaborative roles of other health professionals in the care of pediatric patients and their families.

Course Number

NURS 5371

Course Name

Pediatric Primary Care Clinical Practice I

Course Description

Initial clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Graded.

Course Outcomes

1. Implements evidence-based guidelines in the assessment, diagnosis, and management of the health care needs of pediatric patients and their families with designated acute and chronic problems.
2. Implements health promotion, protection, and disease prevention approaches in the health supervision of pediatric patients and their families.
3. Utilizes interprofessional communication and consultation to develop management plans that coordinate care of pediatric patients and their families.
4. Evaluates pediatric patient and family outcomes to monitor and modify the plan of care.
5. Provides ethical care that is sensitive to pediatric patients and their families in the domains of culture, spirituality, age, gender, and sexual orientation.
6. Utilizes patient care technologies to deliver and enhance care.

Course Number

NURS 5372

Course Name

Pediatric Primary Care Clinical Practice II

Course Description

Continue clinical preceptorship in selected primary health practice sites with opportunities to apply knowledge and concepts of advanced nursing practice implementing the pediatric nurse practitioner role in evidenced based patient care. Graded.

Semester Credit Hours

3

Course Outcomes

1. Implements evidence-based guidelines in the assessment, diagnosis, and management of the health care needs of pediatric patients and their families with designated acute and chronic problems.
2. Implements health promotion, protection, and disease prevention approaches in the health supervision of pediatric patients and their families.
3. Utilizes interprofessional communication and consultation to develop management plans that coordinate care of pediatric patients and their families.
4. Evaluates pediatric patient and family outcomes to monitor and modify the plan of care.
5. Provides ethical care that is sensitive to pediatric patients and their families in the domains of culture, spirituality, age, gender, and sexual orientation.
6. Utilizes patient care technologies to deliver and enhance care.

Course Number

NURS 5685

Course Name

Advanced Clinical Nursing Practicum

Course Description

Clinical preceptorships in selected health practice sites with opportunities to apply knowledge, skills and concepts in a guided, progressive context of advanced nursing practice.

Semester Credit Hours

6

Course Outcomes

1. Use evidenced-based knowledge to manage the health care in selected populations.
2. Provide comprehensive health care (e.g. age, gender, cultural, ethnic sensitive) to patients, families, and/or groups within the ethical and legal scope of advanced nursing practice.
3. Evaluate patient and family outcomes for the purpose of monitoring and modifying care.
4. Collaborate with other health care professionals to provide comprehensive care.
5. Implement the nurse practitioner role in selected settings.
