College of Nursing & Health Innovation Vision and Mission

Mission
Our mission is to advance global health and the human condition through transdisciplinary collaboration by engaging in high-quality teaching, research, scholarship, practice and service to prepare a diverse population of health professionals and to reduce health disparities.

Vision
To provide innovative, exceptional education, through research and practice to advance health and the human condition globally.

Accreditation
The baccalaureate degree program in nursing, master's degree program in nursing, Doctor of Nursing Practice program, and post-graduate APRN certificate program at The University of Texas at Arlington are accredited by the Commission on Collegiate Nursing Education, 655 K Street NW, Suite 750, Washington, DC 20001, 202-887-6791.

The University of Texas at Arlington is accredited by the Southern Association of Colleges and Schools Commission on Colleges
College of Nursing History
The UT Arlington College of Nursing was established in 1971 as the U.T. System College of Nursing in Fort Worth and was housed in John Peter Smith Hospital. In 1976, the school became an academic unit of UT Arlington, moving to the campus in 1977. The history of the UT Arlington College of Nursing and Health Innovation is available at: CONHI History.

Two Paths to a Common Goal – BSN
The Department of Undergraduate Nursing (DUN) provides both a pre-licensure BSN and a RN to BSN course of study. Both options are offered in a Campus-Based (CB) and an Accelerated Online (AO) format.

For Registered Nurses who have completed an accredited Associate Degree or Diploma nursing program, the RN to BSN course of study allows full-time students to complete required upper division courses in one academic year. Part time options are also available. Upon successful completion of the program, the student is awarded the Bachelor of Science in Nursing degree.

For students seeking to become Registered Nurses, there is a four-year course of study consisting of nursing courses, university core courses and other prerequisite required courses. Upon successful completion, the student is awarded the Bachelor of Science in Nursing degree and is eligible to take the National Council Licensure Examination (NCLEX) for licensure as a Registered Nurse.

BSN Program Outcomes
Upon completion of this undergraduate program, students will be able to:

1. Apply the art and science of nursing using current evidence in the delivery of competent, culturally sensitive, developmentally appropriate holistic care. (Cl competency and Holism)
2. Utilize analytical, systematic, and critical reasoning for clinical judgment and nursing decision-making. (Critical thinking)
3. Demonstrate accountability and responsibility for: optimal nursing care, legal and ethical standards, lifelong learning, professional development, promoting the nursing profession, and participating as a citizen in society. (Professionalism)
4. Collaborate and communicate respectfully and effectively with persons/clients and interdisciplinary teams using oral, nonverbal, written, and electronic communication to promote and maintain optimal health outcomes to persons/clients. (Communication)
5. Demonstrate ethical behaviors and conflict management skills that inspire others and create effective working relationships to shape and implement change. (Leadership)
6. Coordinate human and material resources in providing comprehensive, efficient, and cost-effective care to persons/clients. (Resource Management)
7. Articulate the importance of active and intentional lifelong learning that includes self-reflection and awareness. (Teaching/Learning)
8. Utilize standards of practice to provide safe nursing care in all patient care settings with an awareness of one’s role in preventing errors and promoting quality improvement. (Safety/Quality)
9. Access and utilize information and computer sciences to perform nursing functions. (Technology)
AACN Essential of Baccalaureate Education for Professional Nursing Practice
The Essential of Baccalaureate Education for Professional Nursing Practice are published by the American Association of Colleges of Nursing. The Essentials provide the educational framework for the preparation of professional nurses and describes the outcomes expected of graduates of baccalaureate nursing programs (AACN, 2008). The nine Essentials are: Essential I: Liberal Education for Baccalaureate Generalist Nursing Practice; Essential II: Basic Organizational and Systems Leadership for Quality Care and Patient Safety; Essential III: Scholarship for Evidence Based Practice; Essential IV: Information Management and Application of Patient Care Technology; Essential V: Health Care Policy, Finance, and Regulatory Environments; Essential VI: Interprofessional Communication and Collaboration for Improving Patient Health Outcomes; Essential VII: Clinical Prevention and Population Health; Essential VIII: Professionalism and Professional Values; Essential IX: Baccalaureate Generalist Nursing Practice. More information about The Essentials of Baccalaureate Education for Professional Nursing Practice follow this link: https://www.aacnnursing.org/portals/42/publications/bacessentials08.pdf

General Information

Student Contact Information/Official Means of Communication
Students are required to maintain a current mailing address and telephone contact with the University. A change to this information may be completed online via MyMav. This is essential in order that schedules, official correspondence, scholarship notification and emergency messages will not be delayed or lost. Per UTA policy, MavMail is the official communication for all CONHI and university-wide employees to communicate pertinent information and students will be held responsible for all communication distributed in this manner. Students may not claim indulgence on the plea of having moved their lodgings and, therefore of not having received the communication.

It is expected that UT Arlington e-mails and Learning Management System (Canvas) accounts required by many courses will be accessed by all students at least weekly during the semester. Students will be held responsible for information distributed in this manner. Students MUST check their clutter, spam, and junk folders, regularly as many emails end up in these folders.

Americans with Disabilities Act (ADA)
UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including The Americans with Disabilities Act (ADA), The Americans with Disabilities Amendments Act (ADAAA), and Section 504 of the Rehabilitation Act. All instructors at UT Arlington are required by law to provide “reasonable accommodations” to students with disabilities, so as not to discriminate on the basis of disability. More information later in the handbook Reasonable Accommodations

Student Access Resource Center, (SAR) link or call 817-272-3364. For information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations

Counseling and Psychological Services, (CAPS) link or call 817-272-3671. The service is available to all campus students to help increase their understanding of personal issues, address mental and behavioral health problems, and make positive changes in their lives. Accelerated Online students may contact the office for referrals.

Non-Discrimination Policy: The University of Texas at Arlington does not discriminate on the basis of race, color, national origin, religion, age, gender, sexual orientation, disabilities, genetic information, and/or veteran status in its educational programs or activities it operates. Full Policy

A student or prospective student is not obligated to disclose a disability unless he or she requests an accommodation.

Student Success
The Student Success program uses peer mentors, tutoring services and specialized faculty support to enhance the students’ learning experiences. A course, Learning Professional Nursing and Life Skills (NURS 2232) is offered to assist students who experience challenges with testing, time management, clinical practice, and/or professional behavior.

Learning Professional Nursing and Life Skills: NURS 2232 (campus-based), NURS-SS 2232 (AO BSN)

Course required for the following students:

- Any student, who has a nursing course failure, including nursing preparatory courses, pathophysiology or pharmacology

Requirements of the course:

- Students must take the course during their next semester.
• Students who are required to take the course, but do not earn a passing grade, will be required to complete the course again and earn a passing grade.

Course recommended for the following students:
• Any student who wishes to improve test taking strategies, time management skills, and clinical skills.
• Students who scored 75% or less in any nursing course are strongly encouraged to enroll in this course.
• Any student who has dropped a nursing course because of potential failure.

Updated: Fall 2021

Working Students
• It is recommended that a BSN student’s combined employment and semester-hour load not exceed 16-20 hours per week in either regular or summer semesters.
• Students employed in an agency have responsibility, personally and professionally, to engage in only those activities which fall within their job description as non-professional workers (i.e. nursing technician). They have a responsibility to refuse to participate in activities, which they have not been legally licensed to perform (i.e., giving medication, assuming total responsibility for a division, etc.)
• Students should be aware that the Department of Undergraduate Nursing assumes no responsibility for their activities as an employee of an agency. Students are personally responsible and liable for any activity in which they participate while employed. Individuals who practice illegally (i.e. outside the scope of their job) may jeopardize their future since persons who are convicted of a violation of the Nurse Practice Act may not be eligible to write the NCLEX examination and subsequently receive licensure.
• Professional liability insurance purchased by students through the Department of Undergraduate Nursing is only valid in their student role, not their employment role. Information on insurance requirements is available elsewhere in this handbook.
• Students may be employed as nursing technicians, performing functions for which they have been trained by the institution and for which the institution has a clearly discernible policy either in writing or precedent, defining the scope of these functions. Any individual not licensed in the State of Texas to practice professional nursing, and who engages in such practice, is doing so illegally and may be prosecuted accordingly.
• Supervision by a professional licensed nurse does not provide protection to the student or make the student’s actions legal.

Gift Policy
In accordance with Regents Rules and Regulations and the UTA Standards of Conduct, the College of Nursing and Health Innovation has a “no gift” policy. A donation to the UTA College of Nursing and Health Innovation Scholarship Fund would be an appropriate way to recognize a faculty member’s contribution to your learning. For more information regarding the Scholarship Fund or making a donation, please visit our website to connect with the Office of University Advancement via interest form or email.

University Catalog
The University Catalog is available online. It does not contain all regulations that relate to students. However, it contains helpful information, course descriptions, program information, admission requirements, etc.

Department of Undergraduate Nursing Policy & Handbook Library
The College of Nursing Policy & Handbook Library can be found at: https://www.uta.edu/academics/schools-colleges/conhi/academics/undergrad-programs/nursing-bsn
ACADEMIC EXPECTATIONS/REQUIREMENTS

Maintaining Good Standards
Each student is required to:

• Keep apprised of and adhere to the rules and regulations of the most current BSN Department of Undergraduate Nursing Student Handbook and the UT Arlington College of Nursing & Health Innovation Catalog.

• Devote adequate time and preparation to the class and clinical activities to meet the stated objectives.

• Demonstrate academic integrity in each element of their performance.

• Apply ethical behavior appropriate to the standards of a developing professional at all times and particularly in relation to maintaining the confidentiality of information regarding clients.

• Maintain personal health to accomplish the Core Performance Standards as defined.

• Participate in evaluating the College of Nursing, its faculty, courses and program of study.

Academic Integrity and Honesty

• Students may not collaborate with anyone else on assignments, quizzes, examinations, or any other academic work except as directed by the assignment/instructor’s directions.

• Students may not resubmit any assignment or part of a previous assignment – written, audio, or video recorded - for which they previously received a grade. This applies to courses from which a student withdrew and/or in which a failing course grade was achieved.

• Students may not submit the same assignment (written or recorded) or portion of an assignment to more than one course unless specifically allowed or directed by the instructor’s directions. This applies to both graded and non-graded assignments.

• Students may not resubmit any work which has previously been submitted for course credit at any educational institution unless prior written approval is received. Written approval for resubmitted work must be received from both the current course instructor and the instructor of the course in which the work was previously submitted.

• Students may not copy or share any course materials or documents, past or present assignments, nor quiz/examination questions on any social platform or publicly available website.

• Students may not seek, acquire, receive, or provide unauthorized information or assistance regarding an exam, quiz, or assignment (such as purchasing, using, or distributing any unauthorized course materials in order to gain academic advantage).

• Students are expected to accurately and completely document and record clinical practice hours completed and patient/client care activities. Falsifying any documents related to clinical hours or patient/client care activities (including documenting as fact, information not obtained through one’s own direct assessment and examination of a patient or falsely recording clinical practice hours) constitutes dishonesty.

• Students are expected to accurately collect and submit data collected for completion of course and program requirements. Falsification of data or data collection methods constitutes academic dishonesty.

Students suspected of committing academic dishonesty will be referred to the Office of Community Standards. Students found responsible for academic dishonesty are subject to a grade penalty for the assignment in question, which may include a point deduction up to and including a zero and/or course failure. As noted in the University catalog, sanctions may include probation, suspension, and expulsion from the university. Procedures and additional information related to academic dishonesty and violations of the University Honor Code may be found on the Office of Community Standards’ website.

This information comes from the UTA Student Conduct and Discipline Policy:
https://uta.public.doctract.com/doctract/documentportal/08D885BB404E56343D44D3400708EB89
**Academic and Professional Standards**
All students entering the Department of Undergraduate Nursing must subscribe to the standards and codes of the profession. Patients and society as a whole expect Department of Undergraduate Nursing students, as nursing professionals to adhere to the:
- Texas Board of Nursing Unprofessional Conduct Rules
- American Nurses Association (ANA) Code of Ethics for Nurses
- UT Arlington Department of Undergraduate Nursing Student Code of Ethics
- University of Texas at Arlington Honor Code
- Department of Undergraduate Nursing Honor Code

**Computer Requirements**
All students enrolled in the Department of Undergraduate Nursing must have internet access and a laptop computer meeting minimum computing recommendations: A list of computer specifications is outlined on the Department of Undergraduate Nursing website. Students may be asked to purchase and download software to meet course and/or program requirements.

**Learning Environment Behavior**
- Faculty have a commitment to the nursing profession and the next generation of nurses and expect professional demeanor and accountability in student development. Thus, we believe that classroom behavior is as important as clinical behavior, and we have expectations that students will demonstrate professional behavior in interactions with faculty, staff, peers and agencies.
- Students are representatives of the College of Nursing and Health Innovation Department of Undergraduate Nursing and the nursing profession. Classroom dress is expected to project an image of professionalism.
- Students are responsible for all content presented in lecture, lab and required readings whether in attendance or not. It is expected that students will utilize textbooks and other reference materials to fulfill course objectives.
- Taping is not allowed unless permission has been obtained from the instructor.
- Students who need taping as an accommodation for a disability must go through the UT Arlington Student Access and Resource Center and have the permission of the course faculty.
- Programmable devices (e.g., calculators and smart watches) are not allowed during testing, except when approved by the instructor.

**Learning Management System (LMS) Canvas**
- The LMS is considered an extension of the classroom, thus respect of peers and faculty is expected.
- No use of profanity is allowed on the LMS and may result in loss of online course communication.
- No political messages of any kind may be posted on the LMS.
- Depending on the course, the LMS should be checked a minimum of once daily. Refer to individual syllabi for further information.
- Messages of a sexually suggestive or harassing nature may not be posted on the LMS or any e-mail in the University system.
BSN Prelicensure Testing Policy

The purpose of this policy is to provide standardized exam development procedures and exam administration conditions to ensure all students in the College of Nursing and Health Innovation Undergraduate Pre-licensure program are provided a fair and consistent opportunity to demonstrate knowledge. For the purpose of this policy, exams can be delivered electronically or via paper/pencil and occur in a proctored environment supervised via live or video technology to ensure integrity of the exam and identity of testers. In addition, exams may be administered using browser-locking technology to prevent the use of external resources. Exams administered in the CONHI Undergraduate Pre-licensure Nursing Program are either norm-referenced or criterion-referenced. Norm-referenced exams measure student performance in relation to other testers whereas criterion-referenced exams are designed to measure student performance on a specified set of learning outcomes. Exams may be faculty-created or standardized. Standardized exams are used to provide student and faculty feedback on licensure exam preparedness and program effectiveness as well as determine minimally acceptable clinical practice competency. The use and development of all exams administered in the CONHI Undergraduate Pre-licensure Nursing Program is guided by the following standards:

1. National League for Nursing Fair Testing Guidelines for Nursing Education Imperative (National League for Nursing Board of Governors, 2012)
2. The Use of Standardized Examinations in Nursing Education, Texas Board of Nursing 3. Education Guideline 3.7.4.a (Texas Board of Nursing, 2017)

Exam development: According to the UTA Handbook of Operating Procedures (Section 6-503), faculty members are free to develop their own methods of evaluating the performance of students in their classes but are required to make the methods of evaluation and grading standards to be used known in writing in the course syllabus. Exams administered in the College of Nursing and Health Innovation are designed to measure student learning using best practices in exam development. To prepare students for the National Council Licensure Examination (NCLEX-RN), faculty will consider the NCLEX-RN blueprint and content distribution (https://www.ncsbn.org/testplans.htm). Since the practice of nursing requires application of knowledge, skills and abilities, the majority of exam items will be written at the cognitive level of application (or higher), which requires more complex thought processing. Possible question types may include: multiple choice, essay, short answer, fill-in-the-blank, multiple response or hotspot. Blueprints will be provided prior to exams. To match the NCLEX-RN format, back-tracking on exams will be prohibited.

Exam Length: Faculty discretion will be used to determine the number of questions to be included in course exams. The following time per question will be used for exams:

a. SafeMedicate and course exams: 1.5 minutes per question for students in the Pre-Nursing, Junior 1 and Junior 2 semester. Students in the Senior 1 and Senior 2 semester will be allotted 1.3 minutes per question.
b. For other standardized exams not created by UTA faculty, the time per question is at the discretion of the vendor. For ATI exams, students will receive 1 minute to 2 minutes per question.
c. Exam times do not include time spent providing testing instructions or time to review answers and rationales after the exam is submitted.
Exam Scheduling
Exams are scheduled by the Lead Faculty in conjunction with CONHI Testing Specialists. A testing schedule for the CONHI is maintained by the Testing Specialists. Any exams given outside the scheduled exam time must be arranged through the Lead Faculty. During re-scheduled exams, students must comply with all of the testing rules of a normally scheduled exam (e.g. testing environment, dress code, tardiness). Students are not permitted to take exams with students enrolled in another section of the course.

Exam Accommodations
UT Arlington is on record as being committed to both the spirit and letter of all federal equal opportunity legislation, including The Americans with Disabilities Act (ADA), The Americans with Disabilities Amendments Act (ADAAA), and Section 504 of the Rehabilitation Act. All instructors at UT Arlington are required by law to provide “reasonable accommodations” to students with disabilities, so as not to discriminate on the basis of disability. Only those students who have officially documented a need for an accommodation will have their request honored. Students experiencing a range of conditions (Physical, Learning, Chronic Health, Mental Health, and Sensory) that may cause diminished academic performance or other barriers to learning, may seek services and/or accommodations by contacting The Student Access and Resource Center (SARC). Information regarding diagnostic criteria and policies for obtaining disability-based academic accommodations can be found at https://www.uta.edu/student-affairs/sarcenter. Students are responsible for providing the instructor with official notification in the form of a letter certified by The Student Access and Resource Center within the first week of the semester or immediately after receipt whether they intend to use their accommodations or not. Accommodations will not be considered without this documentation.

Exam Scheduling with Accommodations
Students with testing accommodations from The Student Access and Resource Center, students in the Accelerated Online program and students enrolled in Nursing preparatory courses may test in locations other than the 2nd floor of Pickard Hall.

Scheduling Exams in the Adaptive Resource Center
Students with accommodations may be eligible to schedule exams in the Adaptive Resource Center. Students must schedule their exams in the ARC no later than 5 business days prior to the scheduled exam date and time and forward their individual ARC Test Request Forms to course faculty. More information about scheduling exams in the Adaptive Resource Center can be found at: https://www.uta.edu/student-affairs/sarcenter/alternative-testing. Students who do not schedule exams and submit Test Request Forms to course faculty within 5 business days prior to the scheduled exam date and time will not receive accommodations.

Exam Administration Procedures
Students are expected to arrive on time and prepared to test at the scheduled exam administration time. Students must have passwords and access to required software and will not be allotted additional testing time if they arrive unprepared to test. Faculty and staff will not assist with password changes and log-in retrievals. Additional time on exams will not be allowed due to password or access issues. Students are responsible for notifying faculty and rescheduling exams in the event of an excused or unexcused absence.

Excused Absences
Excused absences include legal obligations, military obligations, pre-approved university-sponsored events, emergency situations, religious holy days, death of family member, or illness. To be considered for a re-scheduled exam, the student must notify faculty PRIOR TO exam start date and time. The student must provide absence-related documentation within 48 hours following exam date and time. Absence-related documentation for illness requires proof of a visit to a healthcare provider and must be verifiable documentation with a return to work/school date. There are no exceptions to this rule. There
will be no point deductions for an excused exam absence. The make-up exam may include an alternative questions and/or test format.

In the event of an emergent situation students must notify faculty as soon as they are able. The students will be required to provide documentation within 48 hours of the faculty notification.

**Unexcused Absences** Examples of unexcused absences include oversleeping, exam date oversight, computer/technical issues, or other reasons not listed in the “Excused Absences” section. To be considered for a re-scheduled exam, the student must notify faculty with their request within 48 hours of the exam due date and time. The exam must be scheduled within 7 days of the original exam due date and time. The make-up exam may include an alternative test format and will have a point penalty of 20 percentage point. A student may only have one unexcused absence per course. Subsequent unexcused absences will result in a ‘0’ on the exam. In addition, students will not be allowed to take exam in another section without penalty due to an unexcused absence.

**Exam Tardy** If a student arrives late to an exam, they are only allowed the remaining time to complete the exam. For example, for a 60-minute exam, if a student arrives and has only 13 minutes left, that is all the time they will be given to complete their exam. For online exams, the learning management system will auto-submit an exam at the due date and time of the exam. For example, if an exam is due at 10 p.m. and the student begins the exam at 9:47 p.m., the student will have only 13 minutes to complete their exam. If the student has not completed all questions at that time, the exam will be scored based on what has been completed and, students will not be allowed to complete questions left unanswered.

**Testing Room/Environment**
Faculty and exam proctors are responsible for ensuring a secure testing environment with minimal distractions. Students who do not adhere to these procedures will be referred to the Office of Student Conduct and/or the Lead Teacher for Performance Improvement Plan implementation. Faculty may assign seats in the testing room.

- **Check-In Procedures** Students are expected to arrive 15 minutes prior to the start of the exam. To be admitted into the testing room, students must provide a MavID or a government-issued photo ID. Students may be required to provide a calculator, scantron, and/or earplugs. Faculty and staff will not assist with changing passwords or troubleshooting access issues for log in. Proof of identification will also be required upon exam submission.

- **During the Exam** Once the exam has started and log-in sheets have been passed out, students are expected to remain in the testing room and complete the test. In the event of an emergency or scheduled break, the student will turn in materials to the proctor prior to leaving the testing room. Faculty and staff will not answer questions related to exam content during exams. Once students have finished the exam, all materials distributed before the exam must be returned. Students who leave the testing room with exam-related documents or materials will be referred to the Office of Community Standards for academic dishonesty.

- **Unauthorized Devices and Materials** Students are prohibited from having unauthorized devices and materials in the immediate testing area. Unauthorized devices include, but are not limited to: cell phones, ear buds, smart watches, smart glasses, tablets, alarms, cameras. Unauthorized materials include but are not limited to cheat sheets and notes written on clothing, skin, and personal items. Faculty and staff will conduct visual inspection of clothing and personal items brought to the immediate testing area prior to testing. Any student found with an unauthorized device or material in the immediate testing area will be referred to the Office of Community Standards for an Honor Code Violation.
- **Cheating Behaviors** Cheating behaviors will not be tolerated in the testing environment. Behaviors may include looking at other papers or screens, copying answers from other students, allowing students to copy or look at answers, using or possessing unauthorized devices or material in the testing environment. Any suspicious behaviors will be documented by the proctor and reported to the Lead Faculty for follow up. Students referred to the Office of Community Standards for cheating will be placed on a Performance Improvement Plan or Counseling Record /Incident Report (Nursing preparatory students). The exam grade will be a “0”. For upper division courses, students who are found responsible for an academic integrity violation will not be eligible to receive a Clinical Excellence Award or Letter of Recommendation for the specified course and will complete a written assignment that includes references to American Nurse Association (ANA) and National League for Nurse (NLN) Standards and core values regarding professional integrity.

**Video Proctored Exams**: If a student is noted to have suspicious behaviors on an exam video the faculty may review videos from previous exams within the course. Previous exam reviews may be included on the OCS referral.

- **Distractions and Disruptive Behavior** Faculty and staff will make every effort possible to provide a testing environment that is free from distractions and disruptions. Any student behavior that may cause a distraction is considered inappropriate for the testing environment. Distractions and disruptive behavior include, but are not limited to: audible sound from a cell phone or electronic device that is secured in a bag in a designated area for personal items in the testing environment; reading or talking aloud; excessive bodily movements; frequent and excessive coughing; creating noises, such as tapping sounds; or causing a disturbance. In certain testing locations, electronic devices may be allowed to be stored in a designated area of the testing environment and must be turned off so as not to cause a distraction. If a distraction or disruption is due to an audible sound from a cell phone or electronic device, the student will be placed on a Performance Improvement Plan (or if Nursing preparatory, “Counseling Record/Incident Report”). There will be an automatic point deduction penalty of 20 percentage points from the exam grade. All distractions and disruption will be documented on the “Proctor Exam Report” and provided to the Lead Teacher or designated course faculty.

**Video- Proctored Exam Procedure**

Students are required to follow this procedure when taking a video-proctored online exam. Students who do not to follow this procedure will be notified by the assigned coach and/or course instructor.

The following behaviors will warrant a percentage-point deduction on exams:

- Failing to remove prohibited items or to cover large, difficult to move prohibited items (found in Step 1)
- Submitting an incomplete environmental scan recording, failing to use a detachable webcam, or failing to use the side angle camera view (found in Step 2)
- Failing to identify themselves (no ID shown, unacceptable ID, or picture of ID is unclear and cannot be read (found in Step 2)
- Engaging in prohibited activities (found in Step 3)

Students will receive a 5-percentage point (5%) penalty on an exam for the first offense of any above listed behaviors. Repeated offenses will warrant a 10-percentage point (10%) penalty on an exam.

Online students are responsible for their computer equipment and the speed of the internet services they are using. This applies to either personal equipment or public (for example, a computer at UTA or a public wi-fi service). Using a slow internet connection can result in lost time on exams and a reduced quality of the exam’s video recording. This lost time can
negatively impact a student’s grade. Course instructors are not able to return “lost time” to students with a slow or inconsistent internet connection. Online students should have a back-up computer and internet plan in case equipment stops working. Students should start an exam as early as possible to ensure there is time to activate the back-up plan, if necessary, prior to the exam deadline. Last minute problems with computer equipment, internet service, and/or the lockdown browser will not be an acceptable reason to take an exam late without a penalty.

Students should start and complete exams during the scheduled exam time as outlined on each course schedule. The scheduled exam time includes time for steps 1-3. **If a student is unable to enter an exam and has attempted to troubleshoot their equipment without success, they should contact the Lead Faculty or whoever has been designated as the contact person for exam related problems.**

Refer to the testing policy for the complete Video Proctored Exam Procedure. The complete Video Proctored Exam Procedure can also be found in Canvas courses that use video-proctored exams.

**Post-Exam Procedures**

Once all students enrolled in the course have completed testing, faculty will conduct reviews of exam statistics and make subsequent adjustments to ensure exams are valid measures of student learning. Students wishing to review their exam must follow faculty-designated processes. Students may have an opportunity to provide feedback on exam at the exam site. However, discussing exam items and taking written materials from the testing site will result in referral for academic dishonesty.

**Exam Integrity**  After any and all exams, there must be no electronic or face-to-face discussion with students from other sections of the course or with students who have not taken the exam. Discussion of exam questions outside the classroom is considered collusion to cheat and will be referred to the Office of Community Standards. Students who are aware of other students discussing exam questions are expected to report to faculty or Office of Community Standards. Students and faculty are expected to adhere to the rules regarding academic integrity set forth in Policy 9 of the Handbook of Operating Procedures (https://www.uta.edu/policy/hop/9).

**Scoring** In order to successfully complete an undergraduate nursing course, students must obtain a 70% weighted average on proctored exams. Exam grades are rounded to two decimal places (i.e., 85.679=85.68) but there will be no rounding for final course grades.

Full policy on the CONHI Bachelor of Science webpage
Medication Administration Competency Assessment

Safe and effective medication administration is crucial for optimal patient outcomes. Best practices for student achievement of safety in medication dosage calculation and administration include ongoing assessment of these skills. A standardized electronic medication administration competency assessment is required of students at the beginning of each clinical course in which students administer medications. It is designed to assess competency in calculating drug dosages and safe medication administration. These assessments are part of the clinical PASS/FAIL requirements and are not factored in the course didactic grade.

All students must meet the Medication Administration Competency Assessment requirements in sequential order to pass the clinical component of the course and administer medications in the clinical setting. The requirements include:

1. 100% on Medication Administration Competency Assessment
   a. Students will be allowed unlimited attempts to meet the 100% benchmark requirement on the Medication Administration Competency Assessments in each course.

2. Submission of handwritten math work completed during assessment attempts via CANVAS
   a. If a student is not successful in completing these requirements by the assigned due date. The student will be placed on a performance improvement plan (PIP) and will not be permitted to pass medications in the clinical setting until the requirement is met.
   b. If a student fails to complete the requirements as outlined in the PIP by the assigned due date the student will have failed to meet the requirements of the PIP resulting in a clinical and course failure.

3. Validation of safe medication administration/competency in clinical and/or laboratory setting assessed by UTA clinical faculty using the DUN Medication Administration Competency Assessment Form prior to administering medications with an assigned nurse in the clinical setting
   a. All J1, J2 and S1 clinical courses will use the DUN Medication Administration Safety Contract. Failure to follow the Medication Administration Contract will result in a clinical course failure.
      i. All J1, J2, and S1 clinical courses will use the DUN Medication Administration Documentation Form and students must fill out the form prior to administering medications to assigned patients. Faculty must evaluate the form to ensure complete and accurate information.
      ii. In courses where faculty provide the medication sheet students must have the medication sheet available to review prior to administering medications in clinical.
      iii. Students can reference previously completed medication sheets but must ensure the dosing and reason for administration is patient-specific and in alignment with clinical facility formularies and/or medication requirements.
      iv. If students are permitted to administer medications with a nurse, validation of safe medication administration must occur with the clinical faculty prior to students administering any medication with the nurse.
   b. In Capstone N4350 Transition to Practice the primary goal is successful transition to clinical practice.
      i. Students will be provided with a list of medications that may be used during the Clinical Skills Assessment check off in the Smart Hospital. Students will bring the completed DUN Medication Administration Documentation Form with them to the Clinical Skills Assessment to be checked by the clinical faculty.
      ii. Students will obtain a list of the top 5 medications administered in their assigned Capstone clinical setting and complete the DUN Medication Administration Documentation Form before being allowed to give medications. Students will look up each medication in the clinical setting prior to administration. The clinical faculty will discuss medications given during the clinical shift with each student.
a. Remediation: If a student is unsuccessful in demonstrating safe medication administration in the clinical setting on the first attempt, the student will be assigned remediation activities to complete, before being granted a second medication administration attempt in the clinical/laboratory setting. The activities include:
   i. Completion of https://itsapps.odu.edu/medadmin/
   ii. Completion of a medication worksheet on a designated medication for a simulation patient
   iii. ATI – Video Case Study RN 2.0 Medication Administration
   iv. Proof of completion of these activities must be uploaded to CANVAS by the due date assigned by the faculty. The student will then be granted a second attempt to validate safe medication administration in the clinical/laboratory setting by UTA clinical faculty.

If a student is not successful demonstrating safe medication administration/competency in the clinical or laboratory setting, they will not have met the required clinical outcome resulting in an Unsatisfactory, resulting in a clinical and course failure.

Administering Medications and Patient Safety

Students may not give medications until they have been checked off by their faculty, have achieved the minimum score requirements on Medication Administration Competency Assessment and have read, signed and uploaded the DUN Medication Administration Safety Contract to Canvas. After checkoff, students may only give medications if supervised by their clinical instructor, GTA (Graduate Teaching Assistant), preceptor, or unit registered nurse. Additionally, students must complete a patient specific DUN Medication Administration Documentation Form prior to administration of the medication in the clinical setting. Failure to adhere to this policy will result in clinical failure.

Students are expected to know and utilize the facility designated two (2) positive patient identifiers prior to medication administration, procedures, and/or specimen collection.

Professional Writing/APA

APA style manual will be used by the UT Arlington Department of Undergraduate Nursing with some specific requirements for the undergraduate courses. There is an additional document that will be helpful for BSN students using the 7th Edition prepared by the UT Arlington librarian. There is also a tutorial available online.
Department of Undergraduate Nursing Requirements

Academic Requirements

Advisement

Students are required to meet with an undergraduate nursing advisor during their preparation for admittance to the nursing program. Enrolled campus-based students must meet with an advisor each semester to be cleared for enrollment. In some cases, group advisement may take place.

AO BSN & RN-BSN students are advised virtually but may schedule an in-person appointment.

There are two options available to meet with your advisor:

1. Scheduled appointment
2. Walk-In Days – Current UT Arlington students (those students with a UT Arlington student ID number), Nursing and Health, and BSN Prelicensure students can elect to attend advising on Walk-In Days without an appointment.

Academic advising is available to Campus-Based RN-BSN students.

Nursing and Health Advisors: bsnadvising@uta.edu
BSN Advisors: udbsn@uta.edu
RN-BSN Advisors: Rnadvising@uta.edu

Core Performance Standards (CORE) Overview

All applicants to and students of the University of Texas at Arlington Department of Undergraduate Nursing Program (UTA DUN) must be able to adhere to and perform the essential skills included in this document either with or without ADA accommodations. Please see complete policy for more detailed information.

<table>
<thead>
<tr>
<th>Element</th>
<th>Description</th>
<th>Examples (not all inclusive)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Communication</td>
<td>Communication abilities sufficient for interaction with others in verbal and written form. Communication is understandable to others.</td>
<td>Explain treatment procedures, initiate health teaching, document and interpret nursing actions and patient/client responses.</td>
</tr>
<tr>
<td>Interpersonal</td>
<td>Interpersonal abilities sufficient to interact with individuals, families, and groups from a variety of social, cultural, and intellectual backgrounds.</td>
<td>Establish rapport and maintain professional demeanor with patient/client, family, and colleagues.</td>
</tr>
<tr>
<td>Critical Thinking</td>
<td>Critical thinking sufficient for clinical judgment.</td>
<td>Ability to handle multiple tasks and problem solve simultaneously. Identify cause-effect relationships in clinical situations; utilize the nursing process in developing nursing care plans; and perform dosage calculations in a time frame to deliver safe care.</td>
</tr>
<tr>
<td>Cognitive Ability</td>
<td></td>
<td></td>
</tr>
<tr>
<td>Visual</td>
<td>Visual ability sufficient for observation and assessment necessary in nursing care.</td>
<td>Assess and observe patient/client responses; able to identify and distinguish colors and shades of the same color.</td>
</tr>
<tr>
<td>Tactile</td>
<td>Tactile ability sufficient for physical assessment.</td>
<td>Finger dexterity to perform palpation and percussion functions of physical examination and/or those related to therapeutic intervention, e.g., insertion of a catheter. Perceives attributes of object such as size, shape, temperature, or texture.</td>
</tr>
<tr>
<td>--------------</td>
<td>--------------------------------------------------</td>
<td>--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Hearing</td>
<td>Auditory ability sufficient to provide safe and effective nursing care.</td>
<td>Hears, with and without background noises, monitor alarms, emergency signals, auscultatory sounds, and cries for help.</td>
</tr>
<tr>
<td>Smell</td>
<td>Ability to detect variety of smells, including noxious odors.</td>
<td>Identify distinct body odors or body fluids, such as C. diff and alcohol breath. Detect gas smells.</td>
</tr>
<tr>
<td>Mobility</td>
<td>Physical abilities sufficient to move from room to room and maneuver in small spaces.</td>
<td>Moves around in patient's rooms, workspaces, and treatment areas and can administer cardiopulmonary procedures. Able to coordinate eyes and hands or fingers rapidly and accurately in making precise movements with speed when providing patient care.</td>
</tr>
<tr>
<td>Motor Skills</td>
<td>Gross and fine motor abilities sufficient to provide safe and effective nursing care.</td>
<td>Motor skills of lifting, carrying, pushing, and pulling are required. Physical ability to lift and transfer 50 pounds and carrying of objects up to 25 pounds. Physical ability of bending or stooping one inch from the floor and of reaching overhead to retrieve or place items on patient/unit shelves; to intermittently push objects over 100 pounds; stand/walk for 8-12 hours.</td>
</tr>
<tr>
<td>Academic Integrity</td>
<td>Cite resources using APA format; Avoid collusion;</td>
<td>Any act of academic dishonesty, including cheating in the classroom or clinical setting violates standard.</td>
</tr>
<tr>
<td>Ethical Practice</td>
<td>Abide by Code of Ethics for Nursing Students. Comply with all legal requirements regarding the privacy of patient records</td>
<td>Protect client privacy and comply with all legal requirements r/t patient records. Avoid fabrication of reports or records of interactions with clients, social networking violations.</td>
</tr>
<tr>
<td>Professional Character</td>
<td>Truthfulness, caring, equality, respect. Professional attire</td>
<td>Accountable for behavior; self-disclose errors. Show respect and compassion for all clients without regard to gender, age, race, ethnicity, sexual orientation, religious background, and social status. Adhere to dress code; Arriving on-time to class and the clinical setting.</td>
</tr>
<tr>
<td>Emotional stability</td>
<td>Emotional stability is the capacity to maintain emotional balance and a stable mood when faced with psychological stressors.</td>
<td>Adapt to and make sound clinical judgments in stressful situations. Remain calm, think clearly and stay focused in a pressured and distracting environment. Cope with environmental changes. Ability to regulate and suppress negative emotions. Perceive and appraise challenges with resilience. Display effective coping mechanisms. Effectively deal with strong personal emotions.</td>
</tr>
<tr>
<td>Professional boundaries</td>
<td>Professional Boundaries are the lines within which a client’s best interests are consistently served.</td>
<td>Recognize the need for vigilance in maintaining professionalism and boundaries in diverse practice settings. Behaviors are consistent with the duty to always act in the best interest of clients. Set limits to the nurse-client relationship that ensure a safe, therapeutic relationship.</td>
</tr>
<tr>
<td>-------------------------</td>
<td>------------------------------------------------------------------------------------------------</td>
<td>------------------------------------------------------------------------------------------------</td>
</tr>
<tr>
<td>Empathy</td>
<td>Empathy is the use of emotional resonance to understand a client’s experience of distress.</td>
<td>Use of cognitive skills to evaluate a client’s experience. Attentive to client’s emotional cues, identify their emotional state and reflect understanding of that experience. Demonstrate an understanding of what a client is communicating, feeling and needing.</td>
</tr>
<tr>
<td>Compassion</td>
<td>Compassion is an awareness of another’s suffering accompanied by the desire to alleviate it.</td>
<td>Provide a safe and comforting environment. Respect clients’ rights, dignity and their involvement in decision making. Focus on client’s needs and focus the emotion generated by their circumstance into an active response.</td>
</tr>
</tbody>
</table>

**Accommodations**

The CON is committed to ensuring that qualified students with disabilities are given equal access to its programs through reasonable accommodations. The CON is not required to provide requested accommodations that would fundamentally alter the program, including patient and/or student safety in the clinical setting. Students who desire more information or wish to request reasonable accommodations may contact the UTA Student Access Resource Center.

Upon BSN program acceptance, students must attest to their ability to meet these standards with or without an accommodation. If at that time a student requests an accommodation, the OSD and the CON must determine if the accommodation is reasonable PRIOR to the student beginning upper division coursework.

If a student requires an accommodation to meet these standards, then within five (5) business days of being accepted into the BSN Program, and in order to prevent a delay in the start of their programs, the student must contact OSD to initiate the review process. Students are responsible for obtaining the necessary testing to document the existence of the disability and to what extent the disability substantially limits a major life activity. The OSD will require the student to provide sufficient documentation in this regard, including requiring additional evaluations if necessary. Once received, students should immediately provide their accommodation letter to the CONHI course lead teacher.

**Unexpected Health Care Changes Occurring During Program**

Conditions that result in the inability to complete a clinical rotation include acute illness, physical injury, mental health issue, or complications due to pregnancy, surgery, or chronic illness. Changes in a student’s physical or mental condition that require activity limitations or the inability to participate in clinical or lab will require documentation from the student’s healthcare provider. Documentation must be on facility letterhead and signed by the healthcare provider or designate.

Students must receive a full release with no limitations to return to clinical. Limitations or restrictions may result in the need to withdraw from or take an incomplete in a clinical course.
Licensure/Ineligibility

An individual planning to enroll in a nursing program must be eligible for licensure as a Registered Nurse following graduation. A previous history of the following may make you ineligible for licensure:

- Criminal conviction (includes DWI/DUI)
- Mental illness
- Chemical dependence

If you have reason to believe you may be ineligible to take the licensure exam and need to petition the Texas BON for a Declaratory Order (DO), the process must be complete prior to enrolling in any upper-division nursing course at UT Arlington Department of Undergraduate Nursing.

Students with a positive background check will not be admitted to the nursing program without a DO documenting that they can take the NCLEX exam upon completion of the nursing program. If students need to submit a DO while in the program, they are ineligible to participate in clinical until the DO is received. More detailed information on other ineligibility issues is available on the Board of Nursing website.

Licensure Ineligibility After Starting the Program

A declaratory order may be required if a student has a change in their criminal background or answers yes to an eligibility question. Instructions are available on the BON website. Resubmitting the GroupOne criminal background check may be required.

Students who answer yes to any of the four eligibility questions on the Texas BON license application are encouraged to submit their application through the Texas Nurse Portal 120 days prior to graduation.

Attendance

Completion of orientation for students accepted to the BSN programs is mandatory. There are two components to the orientation – online through the Learning Management System (Canvas) and Jr I program orientation (held virtual or on-campus) both components must be completed to start the program. Acceptance offer will be rescinded if students do not meet the orientation deadlines or are not clinically compliant.

Coursework demands classroom/online attendance and active participation by students for program success. Attendance policies are outlined in the course syllabus. Attendance may be taken during class.

See University Undergraduate Catalog title: Class Attendance, Tardiness & Make-Up Work

Clinical/Lab Requirements

Students must meet all clinical eligibility requirements to participate in clinical. Failure to meet the deadlines may result in revocation of acceptance or program delay.

Clinical Eligibility/Clearance

Junior 1/transfer students are required to complete all vaccine and/or titer documentation at application. Students are encouraged to complete the BON Background Check as early as possible, but no later than one month from the application deadline. Junior 1/transfer students must submit this documentation within 5 working days after acceptance letters/emails are sent, or 2 days of acceptance if initially waitlisted as follows:
Continuing BSN Students are required to obtain clinical clearance prior to direct patient care contact and scheduled clinical hours. Clinical clearance requires written documentation provided by the student to the Program Coordinator for the campus based or AO programs by

- AO BSN Continuing Students - **45 days** before start of semester
- Campus based continuing students
  - Friday of Fall Finals week for spring semester
  - 45 days before start of term for summer semester
  - July 1 for fall semester

Program Coordinators will send a due date for each semester. It is suggested that students wait to get annual requirements such as TB testing and N95 Mask Fitting in May or December. Getting your testing done at these times keeps the student clear for the most amount of time.

Students will not be cleared for registration if they are lacking clinical clearance for the **ENTIRE** semester. **Students will be ineligible to participate in clinical if they have not met this requirement. Therefore, students who are not clear by the due date may be required to sit out for a semester.**

**Clinical clearance includes:**
- Immunizations
- Criminal Background Check
  - BON
  - GroupOne
- Negative Drug Screen (See policy)
- CPR: American Heart Association: BLS Provider valid for the entire semester
- Proof of current health insurance coverage
- Copy of Driver’s License
- DFW Hospital Council Standard Student Clinical Orientation and Post-test (annually)

**Immunization Providers**
Students may obtain the required immunizations and/or immunity titers from:
- UT Arlington Student Health Center,
- County health departments, or
- Private health care providers and/or employers

Students are expected to provide a signed release of clinical requirement documentation to requesting clinical facilities.

Exemptions/waivers of vaccines are not widely accepted at clinical facilities. If a clinical agency does not accept exemptions/waivers you may not be able to complete that clinical course. If you have objections or allergies to vaccines, you should speak to your doctor before starting the program. For concerns regarding a medical exemption contact the Undergraduate Program Coordinator.
**Important Note for Working Students:** Students must adhere to the academic calendar for UT Arlington Department of Undergraduate Nursing clinical clearance for the entire semester, rather than employment calendar for renewals. *Students will be ineligible to participate in clinical if they have not met this requirement.*

Failure to obtain the complete series of an immunization, according to the CDC established timeframe, may result in students not meeting clinical requirements.

**Failure to meet clinical requirements may result in clinical ineligibility and course failure.**
(Refer to Texas Education Code, Sections 2.09 and 2.09A)

**Criminal Background Checks**
Accepted students complete two criminal background checks (CBC): Texas Board of Nursing (BON) and GroupOne.

Students should complete the Texas BON CBC prior to program application. Students who have completed NURS 2300, Introduction to Professional Nursing, or are currently enrolled in NURS 2300, should submit their BON CBC (complete fingerprints) during that course. Students, who have not taken NURS 2300 by the application deadline, should immediately email CONHIadmin@uta.edu to provide the necessary information and give permission to send the information to the BON. Students must schedule the fingerprinting appointment within one month of the application deadline.

A second background check, GroupOne, is completed after acceptance to the BSN Program.

A student with a positive criminal background screen will not be admitted into the program without a Declaratory Order or a letter from the Texas Board of Nursing confirming eligibility to take the National Council Licensure Examination for Registered Nurses (NCLEX-RN Examination) after graduation. Eligibility to take the NCLEX-RN Examination may be affected by any inaccuracies in the petition, and any subsequent violations of the Nursing Practice Act that may affect eligibility to sit for the examination or the later revocation of a license obtained through misrepresentation.

**Drug Screening**
All students accepted to the BSN AO or CB programs will complete a drug screen. The Urine drug screen must be completed 30 days prior to clinical.

At any time if there is a confirmation of a positive drug screening, the student will be removed from clinical courses for a period of one calendar year. Upon returning to the program, random drug screenings will be conducted throughout the program. A second positive test will result in immediate dismissal from the nursing program.

Random and / or for cause drug screens are at the student's expense and must be completed as required. Failure/refusal to undergo a drug screen on the designated day will result in immediate dismissal from the nursing program. [http://www.uta.edu/conhi/students/policy/index.php](http://www.uta.edu/conhi/students/policy/index.php)
**Annual Clinical Orientation**

Dallas Fort Worth Hospital Council (DFWHC) Standard Student Clinical Orientation requirements are valid for 12 months. All students are required to complete Clinical Orientation ANNUALLY while enrolled in JR I – SR II clinical courses.

Contact the Program Coordinator for your program or the Undergraduate Clinical Coordinator for questions/clarification. Documentation of completion must be submitted by the Clinical Requirement due date.

Students are responsible to meet clinical agency specific student clinical requirements in addition to obtaining Clinical Clearance from the UT Arlington College of Nursing. Examples: Signed Confidentiality Agreement, Evidence of Medical Insurance Coverage, Facility Provided Health History, etc.

Students scheduled for clinical are required to attend the *facility specific site orientation*.

**Medical Insurance**

All UT Arlington Department of Undergraduate Nursing students are required to provide Verification of Medical Insurance coverage that includes Emergency Department coverage and follow-up treatment for needle sticks and bloodborne diseases starting with Junior I admission. This mandatory requirement has been approved by the UT System Board of Regents and must be updated if policy changes.

**Clinical Attendance**

It is expected that students will attend all assigned clinical activities. In the case of illness, remember to take appropriate health precautions. Students should **not attend clinical experiences if they are febrile or have any potential communicable disease**. Students are expected to notify clinical faculty immediately if they if they will be late or absent to the clinical site. No call No show is defined as not calling or being present in clinical as scheduled. No call No show may result in a clinical failure unless there was a documented emergency. Notification will not necessarily prevent a performance improvement plan from being generated and placed in the student file. Acceptable methods of notification to clinical faculty will be either phone or text. E-mail is not acceptable. Acceptable methods of notification to clinical agency will be phone unless the student is with a preceptor, then they may reach them by phone or text.

**Tardiness**: defined as greater than 0 minutes of the assigned clinical time.

- The first tardy will result in a verbal warning (verbal warnings are written at the top of the Performance Improvement Plan (PIP) form.
- Students with two (2) tardies will be placed on a PIP with Penalty (i.e. Review two articles and discuss implications for patient safety, collegial relations, etc. or Reflect on impact of this behavior for, patients, peers and as a professional responsibility, or penalty is up to the lead teacher, etc.) which will be kept in the student’s permanent file. Students who are placed on a PIP are ineligible for a clinical award and faculty may not write a letter of recommendation.
- Students with three (3) tardies may receive a clinical failure.
- Time will count towards the total or direct patient care clinical time missed and students will be required to make up the time missed.

**Clinical Absence**: Clinical is defined as any direct patient care within a healthcare setting and laboratory or simulation as outlined in the clinical supplement. All clinical experiences as defined above will be considered when determining absences.

- Student will be placed on a performance improvement plan (PIP) after first clinical missed.
• Students MUST make up clinical. Where feasible the clinical will be made up with an equivalent experience (simulation with simulation, direct patient care with direct patient care, etc.)

• When a comparable experience is not feasible simulation, case studies or other appropriate make-up experiences may be assigned. The experience will be equivalent to actual clinical hours missed; however, it may take longer for some students to complete the assignment.

• In order to adequately evaluate a student, (regardless of the reason for missing clinical) a student with total clinical absences of equal to or greater than 15% of the total clinical time will not be allowed to progress. Students may choose to drop if the clinical absences occur before the drop date. If a student is not eligible to drop the course (i.e. after the drop date), the absences will result in a clinical failure. In extraordinary non-academic circumstances with appropriate documentation, a late drop may ONLY be considered.

Absence of any part of a clinical day will require make-up in the simulation lab or another alternative at the clinical faculty’s discretion. Medical illnesses/emergencies or other dire circumstance may be an acceptable reason to miss an assigned clinical. If a clinical experience is missed due to illness, a medical release will be required prior to returning to the classroom/clinical setting. In the case of other dire circumstance, you will be required to show acceptable proof of the extenuating circumstances that kept you from clinical. Elective medical procedures, work, childcare or travel issues are not an excused absence from clinical and will be considered an unexcused absence. Unexcused absences may result in clinical failure. The first tardy will result in a verbal warning. Students with two (2) tardies will be placed on a Performance Improvement Plan (PIP) which will be kept in the student’s permanent file. Students who are placed on a PIP are ineligible for a clinical award and faculty may not write a letter of recommendation. After 3 (three) tardies, the student may receive a clinical failure.

Students may attend a professional conference and will need to follow the university guidelines found at https://catalog.uta.edu/academicregulations/studentresponsibility/#attendancetext

Religious Accommodations in the academic setting (University Policy)
Students who wish to observe a religious holy day that interferes with classes, examinations or completion of assignments must submit the Religious Accommodation Request Form (RARF) to the course instructor. The request form must specify each class to be missed and/or the planned absence(s). A request should be submitted as early as possible, but generally thirty (30) days in advance of the desired accommodation. Failure to provide reasonable advance notice may impact the University’s ability to accommodate the request. If the student wishes to appeal the outcome of the request, then they make this request to the Dean of Students.

Religious accommodations in the clinical setting
In alignment with the UTA policy (EI-PR-13 Religious Accommodations) and its “commitment to providing an academic and work environment that is respectful of the religious beliefs and practices”, students enrolled in a DUN clinical course may request a religious accommodation in the clinical setting. Students must submit the EI-PR-04 Religious Accommodation Request to InPlace. The request will be reviewed by the Director of Student Support. If the student wishes to appeal the outcome of the request, then they make this request to the Dean of Students.

The attendance/participation in wedding ceremonies (both civil and religious) does not meet the definition of the observance of a religious holy day

Approved in UEPC April 2021

Links: https://policy.uta.edu/doctract/documentportal/08D8B338A7C0D365309E9924B9EEADB9
Technical Skill Performance
Only technical skills learned and validated by clinical faculty in the lab setting and prior to clinical experience (or as approved by the clinical faculty) may be performed in the clinical setting. Students should verify with their faculty their readiness to perform a skill.

Invasive procedures are defined as “purposeful/deliberate access to the body” through needle puncture or placing a device in a natural orifice (Cousins, Blencowe, & Blazeby, 2019). For BSN students, invasive procedures include but are not limited to, venipunctures, IM, IV, subq injections, and insertions of urinary catheters or nasogastric tubes

- Students are not authorized to practice ANY invasive procedure(s) on living beings outside the clinical setting.

Authorized Patient Care Clinical Experiences
Students are to provide nursing care to patients at clinical facilities ONLY when authorized by their UT Arlington Department of Undergraduate Nursing instructor and when their clinical instructor and/or preceptor are present on site.

Dress Code
The Department of Undergraduate Nursing expects students to reflect professionalism and maintain high standards of appearance and grooming in the clinical/lab setting. Students must adhere to the Dress Code Policy.

Undergraduate, pre-licensure student nurses should wear their UT Arlington Department of Undergraduate Nursing uniform and UT Arlington College of Nursing insignia patch ONLY when in simulation, clinical, lab, or other learning experiences authorized by UT Arlington Department of Undergraduate Nursing faculty. When in uniform students should adhere to all dress code standards.

Student Identification
The Mav ID is to be worn above the waist and in clear view when in uniform. It must be worn in all clinical and lab settings. NURSING must be printed on the Mav ID. Only facility ID, if required, indicating student status are allowed to be worn with the Mav ID. The Mav ID must not be worn in settings other than clinical or lab.

Clinical Performance Requirements & Evidence of Clinical Competence
Clinical courses are classified as PASS/FAIL courses. In order to progress in the College of Nursing, students must receive a passing grade in the lecture component as well as satisfactorily meet the clinical course requirements. Students must receive a satisfactory grade (S) on all areas of the clinical course evaluation. Students, who earn any unsatisfactory (U) on their final course evaluation, have not met the course objectives and have failed the course.

Nursing is a practice profession in which patient and family safety must be protected (Texas Board of Nursing). If clinical performance has been deemed unsafe, students may not drop or withdraw from any clinical course. They will be immediately removed from the clinical setting, forfeit further clinical experiences, and receive a grade of F. The following Clinical Failing Behaviors will result in a clinical failure regardless of the drop or withdrawal date and are based on professional nursing standards set forth by the Nurse Practice Act, the Texas Board of Nurse Examiners, and program policy related to patient safety in the clinical setting:

<table>
<thead>
<tr>
<th>Clinical Failing Behaviors</th>
<th>Matched to NPA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Performance is unsafe.</td>
<td>1,2,3,5,6,7,9,10,11,12,13,14</td>
</tr>
<tr>
<td>2. Questionable decisions are often made.</td>
<td>1,2,3,4,5,6,7,8,9,10,11,12,13,14</td>
</tr>
<tr>
<td>3. Lacks insight into own behaviors and that of others.</td>

</tbody>
</table>
Standards of Professional Nursing Practice (BON 213.27, 217.11, 217.12)

1. Knows rationale for side effects of medications and treatments, and correctly administers same 217.00 (1) (C).
2. Documents nursing care accurately and completely, including signs and symptoms, nursing care rendered medication administration. Contacts health care team concerning significant events in patient health 217.11 (1) (D).
3. Implements a safe environment for patients and/or others, i.e., bed rails up, universal precautions 217.11 (1) (B).
4. Respects client confidentiality 217.11 (1) (E).
5. Accepts assignments commensurate with educational level, preparation, experience and knowledge 217.11(1) (T).
6. Obtains instruction and supervision as necessary when implementing nursing procedures or practices 217.11(1) (H).
7. Notifies the appropriate supervisor when leaving an assignment 217.11(1) (I).
8. Recognizes and maintains professional boundaries of the nurse/patient relationship 217.11(1) (J).
9. Clarifies orders, treatments, that nurse has reason to believe are inaccurate, non-effective or contraindicated 217.11(1) (N).
10. Able to distinguish right from wrong 213.27(b) (2) (A).
11. Able to think and act rationally 213.27(b) (2) (B).
12. Able to keep promises and honor obligations 213.27(b) (2) (C).
13. Accountable for own behavior 213.27(b) (2) (D).
14. Able to promptly and fully self-disclose facts, circumstances, events, errors and omissions when these disclosures will enhance health status of patients or protect patients from unnecessary risk or harm 213.27(b) (2)(G).

Refer to the Board of Nursing at www.BON.state.tx.us for any additional information regarding the Texas Nursing Practice Act.

In addition to professional standards of nursing practice, the following program requirements are associated with patient safety and will result in clinical failure without regard to drop or withdrawal time frames:

- Unable to safely administer medications (full policy)
- Non-compliance with clinical clearance requirements
- Non-compliance with Drug and Alcohol Screening policy
- Unlawful behavior prohibiting sufficient background check required for clinical participation

These clinical failures will be reviewed and approved by the Associate Chair/Chair of Undergraduate Nursing Programs.

Clinical Placement

BSN Students will complete clinical preference upon entering the BSN Prelicensure program. Campus-Based (CB) students are randomly assigned to their clinical site. Accelerated Online (AO) students are placed based on partnership (if applicable), ranking score, and submitted preference. While student location will be taken into consideration, this might not be able to be accommodated.

Clinical experiences for both the CB and AO programs are scheduled seven days a week and students will not have the option of weekend or weekday-only clinicals. Once allocated students may not change their assigned clinical site or day. When assigning clinical placement, student work schedules, childcare arrangements, and transportation will not be considered. Students will need to plan for these situations.
Accordingly, once a clinical placement is assigned, students may not change their clinical site or day.

Other factors may be considered during clinical placement if the required information is submitted by the preferencing deadline:

- CB BSN students who are active members of the Honors College will be placed first
- Student organization leaders will not be assigned on their organization’s meeting day
- Military students/Student athletes who have communicated scheduling needs
- Students with approved religious accommodations who submit a Religious Accommodation Request Form (required each semester)

AO and CB BSN students will complete clinical preference upon entering the BSN Prelicensure program. CB BSN students will also submit clinical preferences with each clinical course. Clinical site availability may prevent accommodation of these requests.

**AO Clinical Placement**

Clinical placement is the process of assigning students to a clinical site and/or clinical cohort. For AO students this is comprised of three components: (1) ranking, which is part of the scoring system described in the [AO BSN Admission brochure](#), (2) partner status, and (3) geographic location. Students receive partner status when employed by hospital or healthcare agency that provides clinical sites for the program. Students must be employed, at application and through the first day of class, as documented by the employee pay documents.

A list of geographic regions is provided when applying for the BSN Prelicensure program. Students indicate their preference for a clinical location when submitting the online application and can rank their first, second, and third preferences.

Listed are current clinical partners by geographic regions*. Students can select up to three locations for consideration. Once the location is assigned, students will have clinical experiences in that region throughout the duration of the program.

- DFW Metroplex—may include Decatur, and Texoma
- Metropolitan Houston, may include Lake Jackson, Conroe, Kingwood/Humble
- East Texas: Longview
- Central Texas: Gatesville, Killeen, Temple, and Waco
- Austin area
- Bryan/College Station
- Panhandle: Amarillo, Childress
- Permian Basin: Midland
- San Antonio: may include Fredericksburg
- South Texas: Rio Grande Valley
- Del Rio
- Graham

*List is not inclusive. It may change based on clinical site availability and as new sites are added. Once clinical locations are assigned, students will remain at the clinical site/geographic location for the entire program. If a student drops or fails a course or enrolls as a parttime student, she/he will return to the same geographic location, pending space availability.

AO BSN students who are accepted to the BSN Prelicensure program for a specific geographic area, i.e. Longview, South Texas, Houston, will remain at that location throughout the program. Some specialty rotations may require students to attend alternate sites outside of their primary location. Students in their S2 semester will not choose their Clinical Site, Preceptor or Clinical Schedule.
Students who step out of the program will be placed based on the Priority Course/Clinical Placement with Limited Available Space policy.

**Campus-Based (CB) BSN Clinical Placement**
CB BSN students will complete clinical preference for each clinical course. CB students are randomly assigned to their clinical site using their submitted preference. During the Senior 2-semester, students will not choose their Clinical Unit, Preceptor, or Clinical Schedule.

Student preferences are considered during the clinical placement process if the submission occurs by the preferencing deadline. Student preference will not be considered if the information is submitted after the deadline. Priority consideration occurs for the following situations:
- Active members of the Honors College
- Student organization leaders
- Military students and student-athletes
- Students with approved religious accommodations who submit a Religious Accommodation Request Form each semester

Students who need to repeat a clinical course will be placed based on the Priority Course/Clinical Placement with Limited Available Space policy.

**Inclement Weather/School Closing**
In case of inclement weather, students may call University’s Emergency Information Hotline at 1-866-258-4913 for closing inquiries. Information will also be posted on the UT Arlington website, the UT Arlington Facebook page, and distributed to your UT Arlington e-mail account. AO BSN students at distance sites must contact their clinical instructors for closures. (Check your course syllabus --- specific information may be included in the course syllabus regarding clinical sites.)

**Exposure to Bloodborne Pathogens**
In the event of injury, needle stick, and/or exposure of the nursing student to blood or body fluids, the nursing student should immediately notify the nursing clinical faculty. The faculty will follow the Exposure to Bloodborne Pathogens Procedure in place at the facility. Any expense or treatment required is the responsibility of the student.
Academic Policies

Nursing and Health Policies

Students dismissed for any policy violations must sit out for a period of three years and adhere to the Re-Entry policy.

BSN Prelicensure Program Acceptance

Applicants who accept their position in the BSN program on two occasions and do not start the program will be ineligible for program consideration for two application periods (one year). The applicant may reapply to the BSN Program after the one-year suspension.

Applicants who accept their position and do not start the upper-division program or are not enrolled on or after the census date will be required to reapply to the upper-division program for the next available ranking cycle. (Approved May 2022)

Timeframe to Complete the BSN Prelicensure Program

The BSN Prelicensure Nursing program is designed for full time enrollment, with students completing the upper-division program in four semesters. Students who need to take a semester or more off due to personal or family health concerns, military obligation, financial issues, or other issues must meet with an upper-division academic advisor. Students enrolling part time will experience delayed progression and graduation. The part time option must be discussed with an academic advisor and the student’s degree plan will be updated.

Students must complete the BSN Prelicensure Nursing program within four years of starting the upper-division nursing courses. Students unable to meet this time requirement will be dismissed from the program. They may reapply to the program, adhering to all required admission criteria listed on the Admission Brochure, and if accepted, restart the entire program.

Progression in the Nursing Program

Students in the pre-licensure BSN program will not be permitted to continue in the nursing program nor to enroll for additional nursing courses if they:

• receive a grade of D or F in more than one required nursing or nursing preparatory course, or
• receive any combination of grades of D or F on two attempts of the same course
  o any student who receives a D or F in a nursing course must take N2232

Students will earn a failing grade for the course and will be placed on academic probation if they:

• score less than 70% on weighted exam or assignment average
• do not meet requirements of the Comprehensive Assessment and Preparation Program
• do not achieve minimum score requirements on Medication Administration Competency Assessment
• Clinical Failure

Students in the RN-BSN program will not be permitted to continue in the nursing program nor to enroll for additional nursing courses if they:

• receive a grade of D or F in more than two nursing courses, the student will be dismissed from the program for a period of three years.

Students are responsible for confirming whether they are eligible to continue in the College of Nursing. An ineligible student who nevertheless registers in the College shall be dropped, and the student shall not receive special considerations on a plea of lack of knowledge of scholastic status.

BSN Prelicensure Students Who Withdraw from or Fail a Course

Students who withdraw or fail a course can repeat the course the next available time the course is offered, based on space availability. Students should be aware of the Progression in Nursing
Program policy.

Students:
- Students who seek readmission after failing or withdrawing for any reason must meet with the BSN Academic Advisors to discuss clinical and course options.
- Clinical placement will depend upon the space available within the next cohort. Students may be placed at a site different than their original site, based on availability.
- Students must be clinically compliant by the prescribed deadline in order to be considered for re-entry.
- If no sites are available, the student will be delayed until a seat is available at a future admission date.
- Students should be aware of the Criteria for Readmission of BSN Prelicensure Program Students policy.

*If there are more students than seats available, the students will be placed in the order in which they request the move (first come, first placed).

Withdrawal From Nursing Courses

Students within the BSN Prelicensure program, enrolled in nursing courses are permitted to drop the course one time.Enrolling (on or after the census date) in a course for a second time is considered an attempt. The grade earned on the second attempt is retained. All drops including academic and non-academic drops are also considered an attempt. Compassionate withdrawals and withdrawal exceptions will be reviewed on an individual basis by Undergraduate Nursing Appeals Committee.

Students may drop no more than three upper-division NURS courses during their undergraduate career. All drops for academic and non-academic reasons are considered. Drops due to corequisite and prerequisite violations are also counted in this policy.

Students are required to meet with their academic advisor before dropping/withdrawing. All drops are finalized by the BSN Academic Advisors. Exceptions to this policy may be entertained because of extraordinary non-academic circumstances by Undergraduate Nursing leadership.

Elective and nursing preparatory courses are exempt from this policy.

Dropping Course(s)/Resignation from the University

See University Catalog and information in this handbook.

Grade Exclusion

The University grade replacement/exclusion/forgiveness policy does not apply to nursing courses. The Department of Undergraduate Nursing policy takes precedence over the UT Arlington policy.
70% Rule

Exams/Individual written assignments for progression and rounding policy
In order to successfully complete an undergraduate nursing course, the following criteria must be met:

- 70% weighted average on proctored exams
- 70% weighted average on major written assignments
- 70% overall course grade

In determining the final course grade, the weighted average on major proctored exams and/or major written assignments will be checked first. If a student achieves a 70.00% with no rounding of the average on these course components, the additional graded items will count toward the final course grade.

If the student does not achieve a 70.00% with no rounding of the average on the major proctored exams and/or major written assignments, the grade stands as a D or F as determined by the numerical value from the weighted average on the major proctored exams and/or major written assignments.

On all tests, the grades are rounded to two decimal places (i.e., 85.679=85.68)
- For the final course grade there will be no rounding (i.e., 89.67=B, 69.99=D)
- A final course grade of C or better is required in all nursing courses to pass/progress.

Comprehensive Assessment and Preparation Program (CAPP)
All students enrolled in this course must participate in the Course Content Mastery Assessment, which is a component of the program’s Comprehensive Assessment and Preparation Program. The Course Content Mastery Assessment is worth 10% of the total course grade and consists of practice assessments, proctored assessments, focused reviews, and active learning exercises. Students must complete all components of Phase 1 and Phase 2 to pass the course. After each proctored assessment, students are categorized into one of four proficiency levels:

- **LEVEL <1**: Scores in the <1 category do not meet minimum expectations for performance in this content area.
- **LEVEL 1**: Scores meeting the Proficiency Level 1 standard can be considered to meet the absolute minimum expectations for performance in this content area.
- **LEVEL 2**: Scores meeting the Proficiency Level 2 standard can be considered to exceed minimum expectations for performance in this content area.
- **LEVEL 3**: Scores meeting the Proficiency Level 3 standard can be considered to exceed most expectations for performance in this content area.

Phase 1 of the Course Content Mastery Assessment is worth 4% of the course grade. All students complete a Practice Assessment and submit three critical points for 5 Major Content Areas based on Topics to Review (for a total of 15 critical points). Critical Points must be handwritten, legible and accessible to receive credit. Students who do not complete all components of Phase 1 by the due date will not be eligible to take the Content Mastery Assessment (proctored exam) in Phase 2 and will fail the course.
Phase 2 of the Course Content Mastery Assessment is worth 6% of the course grade and is based on the score received for the proficiency level achieved. All eligible students must complete the Proctored Assessment. Students scoring <1 will receive an Incomplete for the course and will complete the Focused Review and hand-written Active Learning Templates for all Topics to Review listed on the Individual Performance Profile. Active Learning Templates must be handwritten, legible and accessible to receive credit. A learning contract from course faculty will include a due date for completion of the Focused Review and Active Learning Templates during the Incomplete period. Students who complete Focused Review and Active Learning Templates by the assigned deadline in the Incomplete period will receive full credit for Phase 2 based on the score received for the Level achieved and progress in the program. Students scoring <1 who do not satisfactorily complete Focused Review and Active Learning Templates by the assigned deadline will not receive a passing grade in the course regardless of course grade and will not progress to their next clinical course. The complete Comprehensive Assessment and Preparation Procedure can be found here: capp_procedure.ashx (uta.edu)

Criteria for Readmission of Upper-Division Students

Students who withdraw from the upper-division program for more than one semester who wish to return to complete the program must submit a written request for readmission to the Office of Enrollment and Student Services (OESS) by the following deadlines:
- March 1st: AO and Accelerated CB return summer
- June 1st: AO and CB return fall
- September 1st: AO and CB return spring

- Readmission is dependent upon space availability.
- Normally a student is eligible for readmission to the program only once.
- If a clinical course is to be repeated, the student must repeat both the theory and clinical components of the course.
- Student must complete urine drug screen and Criminal Background Check.

Criteria for Readmission:

A. One semester:
- All requirements listed above plus:
- Completion of a clinical assessment. This assessment will be completed no later than three weeks prior to the start of the semester in which the student is planning to return. The assessment will focus on the requirements associated with the last clinical course completed. Input related to requirements to be assessed may be sought from faculty in the previous course(s) completed. Should clinical deficiencies be identified faculty will remediate clinical areas that are questionable or inadequate and provide the results to the lead teacher of the course the student is scheduled to enter. Failing to demonstrate adequate clinical requirements after three attempts will result in the student being required to retake the last clinical course to re-establish clinical competency.
- Note: Students in the AO BSN program may be required to come to the UT Arlington campus to complete the special skills assessment.

B. Two Long Semesters CB or two semesters AO or Accelerated CB (based on course availability):
- All of requirements listed above plus:
- Repeat GroupOne criminal background check.

C. More than two long semesters (CB) or more than two semesters (AO or Accelerated CB):
- Not eligible for readmission. Student must apply for admission as a beginning student.

NOTE: The two-semester rule (see C above) also applies to students requesting to transfer to UT Arlington from another school of nursing. Reviewed and Updated/September 2020
Communicating Academic and Non-academic Concerns
Students are encouraged to actively engage in their educational experience at UTA and within the College of Nursing & Health Innovation. If a student has academic ideas or concerns (coursework, assignment, grades), she/he should communicate with their first-line instructor using the appropriate chain-of-command:

- For AO students, the Academic Coach grades and gives feedback on assignments and didactic coursework. Clinical-based assignments are graded by the clinical faculty.
- For campus-based students, the Lead Teacher grades and gives feedback on lecture assignments and didactic coursework. Clinical-based assignments are graded by the clinical faculty.

If a student has a non-academic idea or concern (dress code, supply list, student activities, equipment needs, etc.) they should communicate with or ask questions through the Health Innovation Constituency Council (HICC). Students can complete the HICC Anonymous Question Form and the idea/concern will be reviewed and brought to the Student Affairs Committee by the HICC representative.

Once the subject is discussed by the Student Affairs Committee, it could (1) be addressed by the committee or (2) promoted to and discussed within the Undergraduate Education Program Council. Once an answer to the idea/concern has been obtained, the Student Affairs Committee Chair will report the findings back to the committee and the HICC representative, who will then share the information with the student.

Dispute and Grievance Procedures
Introduction
To resolve a complaint, the student must first make a serious effort to resolve the matter with the individual with whom the grievance originated.

Faculty of the course has the primary responsibility for assigning grades. Appeals of the official grade assigned to a student for a course will not, therefore, be considered at levels above the faculty unless a student offers evidence of:

- **Differential treatment** – examples might be providing benefits such as extra time for assignments to some but not all students in the class; excluding some students from attendance or other course requirements, OR
- **Procedural irregularities** – examples might be adding a new requirement that was not listed in the class syllabus; using criteria for grades not made available to the student ahead of time.

**Responsibilities of the Faculty**
At the outset of a course, the faculty will provide students an overview of the expectations related to the course (e.g., assignments, grading, absences, and academic dishonesty). The faculty will ensure that the grading policies are uniformly applied to all students in the class.

**Responsibilities of the Student**
**Step 1.** The student must first discuss the issue or grade with the faculty involved. (If a clinical grade, this would be the Clinical Faculty. If the issue cannot be successfully resolved, then the student will discuss the matter with the Lead Teacher/Faculty of Record).
Step 2. In the event the student and the faculty are unable to reach agreement, or the faculty is unavailable, the student may request a meeting with the Lead Teacher/Faculty of Record’s supervisor. (Director of Student Support/Program Director as an example.) At this meeting, the student must present evidence of either Differential treatment or Procedural irregularities. Disagreement with the faculty’s assignment of a grade is not grievable.

Step 3. In the event the student and the Associate Chair/Program Director are unable to reach agreement, the student must complete the Student Academic Grievance Form. The form is available in the Dean’s Office.

Procedure

1. Before a student appeals to the Department Chair/Associate Dean of the Department, the student must have attempted to resolve the complaint with the Program Director or Associate Chair.

2. An appointment with the Department Chair of the involved Undergraduate or Graduate program may be scheduled to review the grievance procedures. This is not an interview to review the details of the grievance.

3. Complete the Student Academic Grievance Form using additional sheets of paper is necessary. Return the completed form to the Office of the Chair/Associate Dean of the Department.

4. The Chair/Associate Dean will appoint a committee of neutral faculty from within the Department to review the Appeal. The Committee shall be composed of at least 3 faculty who are unrelated to the issues or persons involved. The Chair of the Committee will be designated by the Chair/Associate Dean at the time of appointment. The Chair of the Committee will contact all members and provide information and establish a meeting within 5 business days.

5. The Committee will review the appeal and all supporting documentation that has been submitted. The Committee may request an interview with the faculty and/or the student. The student may request the opportunity to meet with the Committee.

6. The Committee’s recommendations will be provided to the Chair/Associate Dean within 10 business days of completion of deliberation.

7. Following review, the Chair/Associate Dean will inform the student of the decision in writing. The decision will be mailed to the student at the address provided on the Student Academic Grievance Form.

8. The Chair/Associate Dean will notify the Dean of the decision.

Admission and Progression Appeals

Students who wish to appeal a non-grade related admission or progression decision can submit an academic appeal using the following link: https://common.forms.uta.edu/view.php?id=1577237. This appeal process includes decisions not related to a student’s course grade such as: admission deadlines, clinical clearance requirements, and program policies related to drops, withdrawals, returns, and readmissions. The Department Chair will appoint a review committee within 7 days of receipt of the appeal. All course grade-related grievances will be addressed in accordance with our CONHI Grade Grievance Policy.

Honors College

Contact Dr. Adegbola, the Honors Coordinator. AO BSN students are not eligible for Honors College.
Incomplete as Course Grade
Students cannot move to the next course if an “incomplete” is the recorded course grade on a pre-requisite course. Students must complete the clinical components of the course to be eligible for an incomplete course grade. https://www.uta.edu/records/faculty-staff/grading.php#incompleteGrades
Priority Course/Clinical Placement with Limited Available Space Continuing, Returning, Transfer Students

Priorities: order of preference for clinical placement:

1. A full-time, continuing student who is eligible to progress to the requested course.
2. A part-time, continuing student who is eligible to progress to the requested course.
3. A full-time student who seeks readmission after withdrawing for any reason. *
4. A part-time student who seeks readmission after withdrawing for any reason. *
5. A full-time, continuing student who has failed the requested course but is eligible to repeat the course based on the UT Arlington Department of Undergraduate Nursing progression policy (i.e., a student who has failed the course the previous semester).
6. A part-time, continuing student who is eligible to repeat the course based on the UT Arlington Department of Undergraduate Nursing progression policy (i.e., a student who has failed the course the previous semester).
7. A student transferring from between programs.
8. An eligible student transferring from another University.
9. A full time, continuing student requesting to change their clinical site.
10. A part-time, continuing student requesting to change their clinical site.

*Priority based on date of request for readmission.

Program/Student Recognition
Award for Excellence in Clinical Nursing

Each semester, students in clinical courses are eligible for consideration. Nominations are made by the clinical faculty in each course with a clinical component. Students are honored at an end-of-the-semester awards ceremony.

Guidelines:

- The award is a faculty selection; it is not a student or group selection.
- The course team (Lead Teacher and all Clinical Faculty) will consider nominations from clinical faculty with a maximum of 5% of students in the course or one (1) group award(s) per course, per semester. Each member of a nominated group must meet the criteria.

Criteria for Selection:

- Consistently exceeds clinical performance standards in the application of theoretical concepts, evidence-based practice, and communication (written and verbal).
- Demonstrates exemplary performance in the use of critical thinking and problem-solving skills.
- Demonstrates exemplary performance in the application of leadership principles and professionalism.
**Graduation**

All requirements for graduation eligibility must be met in order to walk the stage for graduation. All students must apply for graduation, whether they intend to attend commencement.

[https://www.uta.edu/records/graduation/applying.php](https://www.uta.edu/records/graduation/applying.php)

Students, who have been unsuccessful in completing all UT Arlington Department of Undergraduate Nursing courses and/or other graduation requirements, will not be permitted to walk at the graduation ceremony. This includes courses in which an incomplete has been assigned.

Students who complete Capstone prior to graduation but are concurrently enrolled in a general course that does not complete or post final grades prior to graduation, **may** participate in commencement and pinning if they provide documentation on Department of Undergraduate Nursing letterhead from the professor in the course stating that they have passed the course.

Eligibility for graduating with **Latin Honors** is outlined in the UT Arlington catalog and detailed on the UT Arlington graduation website.

Information about the [commencement ceremony](https://www.uta.edu/records/graduation/applying.php) and links to other information about graduation are available on the nursing website as available.

**Pinning Ceremony**

Students who have successfully completed all UT Arlington Department of Undergraduate Nursing and/or other graduation requirements will be permitted to participate in the pinning ceremony. Pinning is scheduled the week of graduation each fall and spring – AO BSN, Campus-Based BSN and RN to BSN students have separate events. See additional information above regarding participation in Graduation and Pinning.

**Nightingale Pledge**

Recited at all pinning ceremonies:

- With full knowledge of the responsibilities I am undertaking, I pledge to care for my patients with all of the knowledge, skills, and understanding that I possess, without regard to race, color, creed, politics, or social status.
- I will spare no effort to conserve meaningful life, to alleviate suffering, and to promote health.
- I will refrain from any action, which might be harmful to the quality of life or health of those I care for.
- I will respect, at all times, the dignity and religious beliefs of the patients under my care and hold in professional confidence all personal information entrusted to me.
- I will endeavor to keep my professional knowledge and skills at the highest level and give my support and cooperation to all members of the health team.
- With full awareness of my qualifications and limitations, I will do my utmost to maximize the potential of the nursing profession and to uphold and advance its standards.

*Adopted by UT Arlington Department of Undergraduate Nursing Students*
