

**Bachelor of Science in Public Health
Estimated Program Expenses**

- ◆ Because the Bachelor of Public Health program consists of both coursework and cumulative experiences, there are additional costs involved. These additional costs are indicated on the first and second charts below.
- ◆ Prices listed are estimates and based on previous expenses, all pricing and requirements are subject to change. Prices listed are rounded to the nearest \$5.00.
- ◆ For a student pursuing a second baccalaureate degree, funding is limited. Grants are not available and there is a limit on student loan funding. For additional information, contact the [UT Arlington Financial Aid Office](#).
- ◆ Maximum Outside Employment Hours while in the program:
Due to the rigorous nature of the program and the time commitments of the coursework, it is preferred that students do work part time. It is recommended students work a maximum of 15-20 hours per week. Some students may find that is too much, depending on other commitments and personal study habits.
- ◆ UT Arlington offers the [Money Management Center](#) as a resource for assistance with budgeting, savings and credit awareness. Appointments are available in person, over the phone, or via Skype.
- ◆ CONHI Scholarships are available. Apply through [Scholarshop](#).

Estimated fees paid to Third Party Vendor
