Reshoring Initiative®

Shorter supply chains have proven to be lower risk and more profitable for Original Equipment Manufacturers (OEMs) for 20 to 30% of products that are now imported. Find out how to accelerate and benefit from the trend to strengthen the U.S. industrial base from Harry Moser, Founder of The Reshoring Initiative®.

The Reshoring Initiative® is a nonprofit organization with the mission to bring good, well-paying manufacturing jobs back to the U.S. by assisting companies to more accurately assess their total cost of offshoring, and shift collective thinking from "offshoring is cheaper" to "local reduces the total cost of ownership."

This APEX Accelerator is funded in part through a cooperative agreement with the Department of Defense.
