

THE UNIVERSITY OF TEXAS  
AT ARLINGTON

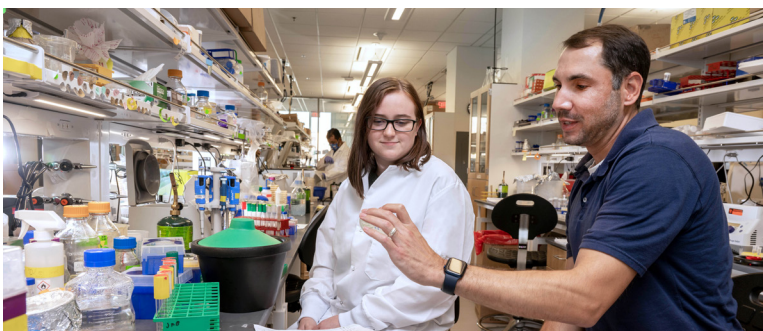

## BY THE NUMBERS

**T**he University of Texas at Arlington is a comprehensive teaching, research, and public service institution dedicated to the advancement of knowledge through scholarship and creative work.

With an enrollment of over **41,000 students**, UT Arlington is the second largest university in the University of Texas System. It offers more than **180** baccalaureate, master's, and doctoral **degree programs**, including areas of critical need in the state and nation, such as public health, elder care, construction management, big data analytics, special education, and more. In addition to its main campus in Arlington, UTA has a **Fort Worth Center**—where working professionals can earn accelerated degrees in engineering, business, and health care fields—and is developing a **UTA West campus** in Parker County to meet the needs of the region's rapidly growing population.

A **Carnegie R-1 "Very High Research Activity"** university, UTA is focused on making an impact through innovative research. Faculty work in areas such as sustainable infrastructure, healthy aging, high-energy physics, cardiovascular disease, machine-learning systems, and more.

**#1** median wage for baccalaureate graduates working in Texas among UT System non-medical institutions (*UT System survey, 2024*)

**270,000+** alumni

**#56** nationally for least debt among graduates (*U.S. News & World Report, 2024*)

**\$135 million** in research expenditures (FY 2023)

**\$28.8 billion** economic impact on Texas created by UTA and its alumni annually

**13,000+** degrees awarded annually

**1** of only **21** universities in U.S. to receive both Carnegie R-1 and Hispanic-Serving Institution designations

**#5** most ethnically diverse undergraduate population (*U.S. News & World Report, 2024*)

**#1** public university in the U.S. for veterans and their families (*Military Times, 2023*)

**#1** producer of baccalaureate-degreed nurses in Texas
