

# UTA West

*The University of Texas at Arlington is heading west. In August 2024, UTA announced plans to build UTA West, a new campus that will bring all the benefits of a top-tier research university to Fort Worth and Parker County, two of the fastest-growing regions in the country.*

UTA West will enable the University to continue its mission of **providing greater access to affordable higher education and equipping students with the knowledge they need to thrive**. UTA has long been a top supplier of talent to companies and communities across Fort Worth and the region, with top employers of Maverick alumni including Lockheed Martin, Baylor Scott & White Health, Texas Health Resources, Fidelity Investments, and American Airlines. The new campus will bolster this effort by offering a curriculum that **supports future economic and workforce development** activities in fields that align with the region's growth.

## FAST FACTS

Located on **51 acres** of property within the Walsh Ranch development

Expected to welcome its first class in **fall 2028**

Part of a long-term plan to serve more than **10,000** students

## PROJECTED ECONOMIC IMPACT

The initial construction-related activity of UTA West will lead to an increase of **\$211.9 million** in gross product and more than **2,000 jobs** in Texas.

The ongoing economic impact of campus operations and student spending, when fully built out, is projected to be almost **\$292.2 million** in gross product and **2,273 jobs** in Texas.
