WHAT
Students will spend one week reviewing important algebra and trigonometry concepts from their previous precalculus courses to get ready for Calculus. This boot camp will give them a jumpstart into the new semester, and set them up for success in Calculus II!

The online sessions are three hours each day for one week. To attend, students will need access to a computer with good internet service. It is recommended to have a set of headphones with a microphone.

Students may take a Math Placement Assessment (either ALEKS or the MPT) beforehand, but it is not required. Math Placement information can be found here http://www.uta.edu/math/LRC/mpt and both programs provide free additional study plan materials for student success.

WHEN
January 10 through January 13, 2022
Students may register for the following session:
5:00 pm – 8:00 pm
This session will focus on Algebra and Trigonometry foundations.

Students must be able to attend all 4 online sessions Monday through Thursday for the full 3 hours each day. See the Enroll Now link to register and pay for the Calculus Boot Camp. Registrations will be automatically canceled if payment is not received within 72 hours of completing the registration.

**Enrollment deadline: January 6th, 2022**

Students will receive course access information on January 10th, via their Mavs student email address.

WHO
Any UTA student who is currently enrolled in Calculus I (Math 1426) or higher for the Spring 2022 semester.

ENROLL NOW!!
Only 60 slots.
