WHAT

Students will spend one week reviewing important concepts from their previous mathematics courses and getting familiar with new material they will learn in their next algebra, precalculus, or calculus course. This boot camp will give them a jumpstart into the new semester, and help students currently enrolled in or eligible for Math 1302 to improve their placement scores to allow enrollment in Math 1421 or Math 1426 this fall!

The online sessions are three hours each day for one week. To attend, students will need access to a computer with good internet service. It is recommended to have a set of headphones with a microphone.

Students are required to take a Math Placement Assessment (either ALEKS or the MPT) beforehand. Math Placement information can be found here http://www.uta.edu/math/LRC/mpt/. DO NOT enroll in this session without first taking a placement assessment.

WHEN

August 2 through August 5, 2021

Students may register for the following session:

5:00 pm – 8:00 pm

This session will focus on Algebra foundations.

WHO

Any UTA student who is eligible to enroll in College Algebra (Math 1302) or higher with an ALEKS score of at least 46 or an MPT-Part 1 score of at least 11 points.

**ENROLL NOW!!**

Only 50 slots.
