WHAT

Students will spend one week reviewing important concepts from their previous precalculus and calculus courses and getting familiar with new material they will learn in their next calculus course. This boot camp will give them a jumpstart into the new semester, and help students currently enrolled in or eligible for Math 1421 to improve their placements scores to allow enrollment in Math 1426 this fall!

The online sessions are three hours each day for one week. To attend, students will need access to a computer with good internet service. It is recommended to have a set of headphones with a microphone.

Students are required to take a Math Placement Assessment (either ALEKS or the MPT) beforehand. Math Placement information can be found here http://www.uta.edu/math/LRC/mpt/. DO NOT enroll in this session without first taking a placement assessment.

WHEN

August 9 through August 12, 2021

Students may register for the following session:

5:00 pm – 8:00 pm

This session will focus on Trigonometry foundations.

Students must be able to attend all 4 online sessions Monday through Thursday for the full 3 hours each day. See the Enroll Now link to register and pay for the Mathematics Boot Camp. Registrations will be automatically canceled if payment is not received within 72 hours of completing the registration.

**Enrollment deadline: August 5th, 2021**

Students will receive course access information on August 6th, via their Mavs student email address.

WHO

Any UTA student who is eligible to enroll in Preparation for Calculus (Math 1421) or higher with an ALEKS score of at least 61 or an MPT-Part 1 score of at least 17 points.

ENROLL NOW!!

Only 50 slots.
