Grading Information

Grading

Assignment Category	Number of Graded Items	Point Value per Item	Total Points
Quizzes	5	50	250
Case Study	2	50	100
Attendance/Participation	1	5	10
Total Course Points:			360

Final Grade Policy: This class will utilize an unweighted points system. Final grades will be calculated as a percentage of total points earned. To calculate individual student final grades, add up the total points earned on each graded item and divide that sum by the total maximum points for the course (270). Multiply by 100 to get the percentage. Final grades falling 9.5 and above will be rounded up (e.g., 89.5 will round to an A, 79.5 will round to a B, etc). Final grades falling below this will not be rounded up. There are no exceptions to this policy.

Quiz Day/Assignment Policy: **There will be NO make-up exams or assignment extensions except for extreme circumstances/emergencies (criteria professor's discretion).** The schedule notes the dates for all, giving you plenty of time to make arrangements accordingly. Any makeup exam/assignments that meet the extreme criteria must be scheduled IN ADVANCE of the due date. If, for whatever reason, extreme circumstances arise ON exam day, you are responsible for contacting me **PRIOR TO THE START OF CLASS to apprise me of the situation. WAITING UNTIL THE TEST HAS BEEN ADMINISTERED/DUE DATE HAS PASSED IS UNACCEPTABLE.** Be prepared to provide documentation of the circumstance. Failure to follow these guidelines will result in an automatic "0" for that exam grade. University-related absences are exempted from this policy, but you are still required to notify me in advance of such a conflict.

Technology note for quizzes and assignments: All exams and assignments will be due via Canvas at **11:59 p.m. CST** on their designated due dates. To account for potential technology and other issues (loss of WIFI, laptop issues, cats playing with modem, boss calling you into work last minute, forgetting when the assignment was due, traveling, falling asleep unexpectedly, etc.), I **HIGHLY** recommend submitting **EARLY**. *Exams/assignments will not be available for submission past 11:59 p.m. Emailed assignments will not be accepted.*

Face Covering Policy

Students and instructors are strongly encouraged to wear face coverings while on campus, particularly inside buildings. If a student needs accommodations to ensure social distancing in the classroom due to being at high risk, they are encouraged to work directly with the Student Access and Resource Center to assist in these accommodations. Masks may be obtained at the Central Library or the E.H. Hereford University Center's front desk.

Attendance

At UTA, taking attendance is not required but attendance is a critical indicator of student success. Each faculty member is free to develop their own methods of evaluating students' academic performance, which includes establishing course-specific policies on attendance. As instructor of this course, I will not take official attendance. However, while UTA does not require instructors to take attendance, the U.S. Department of Education requires that the University have a mechanism in place to verify Federal Student Aid recipients' attendance in courses. UT Arlington instructors will report the last date of attendance as part of the final grading process, when assigning a student a grade of F. Attendance may be based on evidence of academic engagement such as a test, participation in a class project or presentation, or an engagement online via Canvas. This date is reported to the Department of Education for federal financial aid recipients. Additionally, various random in or out of class assignments may be administered which cannot be made up. These assignments will not be graded individually, but will contribute to the student's overall participation grade.

Distance education courses require regular and substantive online interaction and participation. Students must participate in online course activities to demonstrate attendance; logging into an online class is not sufficient by itself to demonstrate attendance

Emergency Exit Procedures

Should we experience an emergency event that requires evacuation of the building, students should exit the room and move toward the nearest exit. When exiting the building during an emergency, do not take an elevator but use the stairwells instead. Faculty members and instructional staff will assist students in selecting the safest route for evacuation and will make arrangements to assist individuals with disabilities.

Evacuation plans may be found at [Evacuation Route Maps \(Buildings\)](#).
