

PENN STATE CHILD MALTREATMENT T32 POSTDOCTORAL FELLOWSHIP TRAINING PROGRAM

DEADLINE – January 15, 2021 by 5:00 EST

[Penn State University's Child Maltreatment Solutions Network](http://solutionsnetwork.psu.edu) (solutionsnetwork.psu.edu) is now accepting applications for our 2-year [NICHD-funded T32](http://solutionsnetwork.psu.edu/t32-grant) (solutionsnetwork.psu.edu/t32-grant) post-doctoral fellowship in child maltreatment science. The training will allow fellows to specialize in several [training tracks](#) including a) Biology and Health, b) Developmental Processes, c) Prevention and Treatment, and d) Policy and Administrative Data Systems. This training is one of the few opportunities for new scholars to develop expertise across the wide spectrum of child maltreatment science.

Penn State University is also home to the [*NICHD P50 Capstone Center of Excellence in Child Maltreatment Research and Training*](#) - Penn State's Translational Center for Child Maltreatment Studies and fellows would get the opportunity to work on several large-scale research projects, that include child welfare-involved youth, intervention and prevention projects as well as longitudinal studies on predictors of child maltreatment, youth and family outcomes, and child welfare data and services.

Fellows will benefit from the comprehensive, multi-level and transdisciplinary training program that seeks to develop transdisciplinary scholars. Postdoctoral fellows will work with a [mentor team](#) from a group of 13 faculty experts in child maltreatment. Fellows will also work with a set of [secondary mentors](#) from a group of 25 Penn State faculty with specialties including, but not limited to education, biology, genetics, treatment, human development, administrative data systems, social determinants of health, emotional and cognitive development, physical health, behavioral economics, and neuroscience. Fellows will be trained in research ethics, professional development, and grant writing, as well as gain experience in implementing research and translating findings to influence practice and policy within the child maltreatment field. Fellows will also get the opportunity to participate in a summer training institute on child maltreatment in partnership with other P50 Centers and attend P50 Center meetings at NIH. Women, minorities, protected veterans, LGBTQIA+ people, and individuals with disabilities are encouraged to apply.

Preferred applicants will have a doctorate in a relevant area of study, excellent oral and written communication skills, and experience in conducting research and data analysis on child maltreatment research or related area.

Start date for fellowship is flexible (ideally early July, 2021). Interested applicants should send an email with their curriculum vitae, a 5-page double-spaced statement of interest that includes their previous experience, career goals, and indicate two primary training tracks of interest and preferred primary and secondary mentors (**please see website for specific [application instructions](#)**), a writing sample, and two letters of recommendations by **JANUARY 15, 2021 by 5:00 PM EST** to Yo Jackson, Ph.D., ABPP, Penn State University, Department of Psychology, yjackson@psu.edu.

Penn State is an equal opportunity, affirmative action employer, and is committed to providing employment opportunities to all qualified applicants without regard to race, color, religion, age, sex, sexual orientation, gender identity, national origin, disability or protected veteran status.
