There’s lots of great updated information about incorporating health into your life with physical activity. Try a workout before that study session!

Consider Project Match Made in Schools (Project MMS) and join a cohort of future educators and teachers in [your state of residence].

Francis Bacon (1597) coined, “knowledge is power,” and if we wish to contribute to the welfare of our future generations and foster an environment in which power is ethically contributed to their advocacy efforts for teachers’ rights. If you are an out-of-state student, I encourage you to follow the phenomenon which you may feel passionate about. If so, I encourage you to follow the incidences in which you believe a teacher was wrongfully terminated. Perhaps this is a phenomenon which you may feel passionate about. If so, I encourage you to follow the incidences in which you believe a teacher was wrongfully terminated, or do you think the school district is justified in their decision?

Last week I discussed the topic of school shootings, and this week I happened to come across a very interesting article in the Orange County Register about a school shooting drill, which was deemed ‘inappropriate’ by the Orange County School Board. The school principal, Mr. Thompson, was asked to explain why the drill was deemed inappropriate, and he chose to incorporate this same topic in his lesson plan; he asked his students to consider the topic of school shootings and discuss how they would react in the case of a possible school shooting. One of the students, Alex, came up with an idea for a project where adolescents must learn how to react in the case of a possible school shooting, or do you think the school district is justified in their decision?

There are many different ways to advocate for environmental justice, and as a social worker, you will have the opportunity to make a real difference in the lives of the people you work with. How could you advocate for environmental justice once you become a Social Worker?

What can you do to improve your environment? How can you improve environmental sustainability? How can you promote environmental justice? What are some of the challenges you face in promoting environmental justice? How can you address these challenges?

According to Christina Erickson, MSW, PhD, throughout her childhood to adulthood, she really loved the environment. She loved to camp outside or ride her bike from home to work and not use her car. She was very conscious of not wasting anything and always tried to reduce, reuse, and recycle. How could you advocate for environmental justice once you become a Social Worker?

How would you define nature? To some, many enjoy the outside. You may have enjoyed going on hikes, camping, or spending time in the woods. How can you promote environmental justice in these areas?

What are some of the challenges you face in promoting environmental justice? How can you address these challenges? What are some of the strategies you could use to promote environmental justice in your community?
