FIND YOUR CAREER

Department of Earth and Environmental Sciences

What career options do I have with this major?

- Data Analyst
- Environmental Consultant
- Environmental Engineer
- Environmental Scientist
- Field Engineer
- Field Geologist
- Field Technician
- Geologist
- Geoscientist
- GIS Analyst
- Laboratory Technician
- Research Assistant
- Scientist

Workforce Skills

Career Readiness

- Ability to make critical observations of geology and environmental features
- Ability to summarize data and field observations into report and present report to professionals
- Knowledge of scientific and engineering principles from a range of disciplines relevant to geology and the environment
- Perceiving three-dimensional spaces and forms
- Producing oral and written reports
- Proficiency with computers and scientific instruments
- Solving quantitative problems
- Working independently
